Additonal Information				Turnkey solutions includes- All software necessary to complete backups, client side server/storage for a single location for up to 20T. In addition, KISD has identified a 100MB connection that would be used for data transfer	Turnkey solutions includes- All software necessary to complete backups, client side server/storage for a single location for up to 20T. In addition, KISD has identified a 100MB connection that would be used for data transfer		Syncsort proposed a complete enterprise license agreement. Under the contract KISD will be able to use all Syncsort functionality. Both standard and advanced on both physical and virtual servers. This license is soley based on capacity of data being protected from the source side.	Quote is inclusive of all media- hard drives and storage cases.
