Benjamin School District 25
Business Services

ACTION ITEM

Resolution Appointing a Representative and Alternate Representative for Benjamin School District 25 to the Northern Illinois Health Insurance Program

Background

NIHIP has notified the District that it does not have a current General Board designation letter on file for Benjamin School District 25. NIHIP requests formal notification identifying each member district's primary and secondary General Board representatives.

According to the designation request, NIHIP's Bylaws require General Board members to be school administrators serving as a Chief School Business Official or in a similar administrative position. Both the primary and secondary voting representatives must maintain these qualifications.

Proposed Designations

The Administration recommends that the Board formally designate the following qualified administrators to represent the District on the NIHIP General Board:

Primary Representative: Dr. Joel Filas, Chief School Business Official

Secondary Representative: Dr. Patrick McGill, Superintendent of Schools

Recommended Board Action

Approve the designation of Dr. Joel Filas as the District's primary NIHIP General Board representative and Dr. Patrick McGill as the secondary representative, and authorize the Administration to submit written notification to NIHIP.
