☒ Action
☒ Discussion
☒ Information

Purpose/Background:

This document provides the Finance Committee with an update of ongoing District renewals and/or purchases that will not require Board Approval based on criteria adopted in May 2023.

Items for Finance Committee Review:

- **XtraMath Renewal for 2026-2027**
  - Teachers within the Rutledge Hall use this tool with students in Math to get immediate feedback regarding their speed and accuracy of computation. Teachers track student progress using fluency reports, and can customize programs to differentiate for students.
  - Included in this renewal is an expansion of the license, enabling the District to offer this resource to students in other grade levels.
  - $500 - The District paid $500 for the same services for the 25-26 school year.

- **Signup Genius Platinum Renewal for 2026-2027**
  - Signup Genius Is the platform that the District has been utilizing for parent-teacher conferences to allow parents to schedule times for conferences.
  - This platform is also used for functions throughout the District for a number of years.
  - $539.89 - The District paid $539.89 for the same services for the 25-26 school year.

- **Rosetta Stone**
  - Rosetta Stone is a language tool designed to assist newcomer students or Level I English Learner (EL) students who have very little background in English.

- The software is self-paced which students can be accessed from home or school
- The District historically has purchased a total of 15 subscriptions for newcomer students since 2020.
- This year the District does not currently have any newcomers or students that fit this need, so it was decided that we will pause the subscription unless we see an influx of students that necessitate the need.
- Negotiating with the vendor, The District has been able to reduce the cost per student to a record low.
- $675 - The District paid $1800 for the same licenses during the 25-26 school year.
