10.F.	Approval of Revised 2026-2027 School Calendar	**Speaker(s):** Mr. Stephen Lindemuth, Educational Planning Chair
10.G.	Personnel Report	**Speaker(s):** Mr. Tom Strickler, Superintendent
11.	**CLOSING ITEMS**	
11.A.	Announcement of Executive Session	**Speaker(s):** Mrs. Kelly Carter, School Board President
11.B.	Adjournment	**Speaker(s):** Mrs. Kelly Carter, School Board President

Elizabethtown Area School District

Inspiring and Supporting Every Learner to Reach Their Fullest Potential

Student & Staff Recognition

Kate Miner

Pennsylvania Society for Biomedical Research Contes

Introduction by: Dr. Timothy Re

School: Elizabethtown Area Middle School

Kate Miner

Pennsylvania Society for Biomedical Research Contest

- Poster winner out of 400 entries
- Topic is biomedical research with animals leads to improvements in human medicine
- Winning poster included in the new Pennsylvania Society for Biomedical Researc calendar
- Winner receives cash prize and was recognition at the PSBR Awards dinner at Th Hershey Lodge, on Friday, June 19th

Big-Picture Intro

I'll begin tonight with a few District-wide updates as we prepare for the start of the 2026-2027 school year.

Back-to-School Countdown

We are officially in the home stretch as we prepare to welcome our students, faculty, and staff back for the start of another school year.

Our newest faculty members will be the first to return, participating in New Teacher Induction from August 17 through August 19. The following week, on Monday, August 24, all faculty and staff will return, and we will kick off the week with our annual Opening General Session for all employees.

And then, just 20 days from today, we will welcome our students back for the first day of school on Monday, August 31. The first day will be an early dismissal, and it will be a short opening week, with the Labor Day recess beginning Friday, September 4, and continuing through Monday, September 7.

As we head toward opening day, our current enrollment stands at approximately 3,274 students across the District. That includes 629 students in our K-2 primary elementary schools, 710 at Bear Creek School, 772 at the Middle School, and 1,163 at the High School.

There is a lot of activity taking place across the District over these next few weeks, and we are looking forward to having our faculty

and staff back in our buildings and, most importantly, welcoming our students for Day 1 on August 31.

East High Street Traffic Update

As we prepare for the start of school, we want to make our East High Street Elementary families aware that the temporary traffic pattern put in place at the end of last school year will continue this fall due to the ongoing geothermal project. We currently anticipate this traffic pattern remaining in place through September.

The project continues to impact the parking lot typically used for bus drop-off. As a result, all bus traffic will use the lane directly in front of the school, while student drop-off will continue as usual from the staff parking lot.

We will have additional traffic control personnel in place to help manage traffic and ensure the safe entry and exit of buses, vehicles, and students from the school campus.

We ask families to allow a little extra time during arrival and dismissal, particularly during the first few days of school, and we appreciate everyone’s patience and cooperation as we manage these temporary changes.

Back-to-School Center

As we prepare for the first day of school, we encourage families to visit our Back-to-School Center at etownschools.org. This one-stop resource includes important information on school

hours, transportation, lunch menus and accounts, parent nights, before- and after-school programs, required forms, and much more.

We encourage families to check the Center regularly as we approach August 31 to make sure they have the information they need for a smooth start to the school year.

EASD's Plan for Success

We also recently launched a new four-part series, **EASD's Plan for Success: 2026-2027 School Year**, to give our families and community a closer look at the work underway to support every learner in the year ahead.

The series connects our District mission and Comprehensive Plan to the work happening every day in our schools, with a focus on MTSS, data-informed decision making, student engagement and instruction, and family partnerships.

The first article was released last week, and part two will be released tomorrow, with additional installments continuing throughout August.

Families can follow the entire series through our Back-to-School Center at etownschools.org, through the email sent when each new article is released, or on our District social media channels.

Student Spotlight Intro

And while there is a lot happening across the District to prepare for the year ahead, our students are already getting back to

work. I'll close tonight with a couple of updates highlighting our Bears.

Fall Athletics Get Underway

Our fall athletics season is already underway, with football and golf beginning practices this week. The remainder of our High School fall sports teams will begin next week, followed by our Middle School teams during the week of August 24.

This fall, 383 students in grades 7-12 are signed up to participate in a fall sport. Our Bears will compete in football, golf, boys and girls soccer, boys and girls cross country, field hockey, girls tennis, girls volleyball, and cheerleading.

Competition will also be here before we know it. Our football team will open its season on the road in Week 1 at Donegal before returning home for its home opener in Week 2 on Friday, September 4. We look forward to seeing our students, families, and community back in the stands supporting all of our Bears this fall.

Best of luck to all of our student-athletes and coaches as they prepare for the season.

Marching Band Preview Fall Show

Our Marching Band gave us an exciting preview of the season last Thursday evening during their annual Fall Preview performance.

While the performance was held indoors, which limited the marching portion of the show, there was certainly no hiding the

musical talent or the hard work our students put in during last week's band camp. Their performance was an impressive first look at what is ahead this fall.

This year's Marching Bears feature 106 members, including 10 color guard members and two majorettes. Their 2026 show is titled "Biohazard," and the band will be led by Drum Majors Nick Reigner, Margo Sirinides, and Garrett Messick.

The community will have plenty of opportunities to see the entire production come together, as the Marching Bears will perform their full show at each of our football games this fall.

Congratulations to all of our student musicians and performers, as well as our directors and staff, on a great start to the season. We look forward to seeing "Biohazard" take the field this fall!

Closing Remarks

As you can see, there is a lot happening across EASD as we prepare for another school year. I want to thank our faculty, staff, administrators, students, and families for all they are doing to help us get ready.

We're just 20 days from Day 1, and we're looking forward to another great year at EASD.

Go Bears!

Presentation Date: August 11, 2026

Elizabethtown Area School District

Every Student Graduates Ready to Live, Learn, and Thrive in a Global Community.

2026 -2027
EASD vs PA Budget
REVENUE

Presented by:

Tom Strickler

Chief Financial & Operations Officer

Alignment to Board Goals

Goal 1:
Create a 5-year financial plan to include all operations and education including renovation and instruction.

Goal 2:
Promote and support broad opportunities and flexibility for individual learning while complying with core standards.

Goal 3:
Identify and remove barriers to help students grow educationally, emotionally, and socially and for staff to thrive and succeed.

*Board goals highlighted in **GREEN** are relevant to the presentation*

Alignment to Pillars

Pillar 1: Student Learning

Pillar 2: Student Readiness

Pillar 3: Engaged, Well Rounded Students

Pillar 4: Well Being

Pillar 5: Effective Adults

Pillar 6: Community Connections

Pillar 7: Effective Systems

*Pillars highlighted in **GREEN** are relevant to the presentation*

2025-2026 and 2026-2027

	2025-2026 ACTUAL Received	26-27 (Governor & EASD Budget)	2026-2027 - ACTUAL	25-26 vs Governor's	25-26 vs 26-27 ACTUAL
Basic Education	$11,676,735	$11,755,681	$11,740,518	$78,946	$63,783
Special Education	$2,813,461	$2,895,869	$2,898,046	$82,408	$84,585
Ready To Learn	$1,262,737	$1,657,596	$1,657,453	$394,859	$394,716
TOTAL	$15,752,933	$16,309,146	$16,296,017	$556,213	$543,084

2025-2026 Actual vs 2026-2027 Budget

	2025-2026 ACTUAL	26-27 (Governor & EASD Budget)	25-26 vs Governor's
Basic Education	$11,676,735	$11,755,681	$78,946
Special Education	$2,813,461	$2,895,869	$82,408
Ready To Learn	$1,262,737	$1,657,596	$394,859
TOTAL	$15,752,933	$16,309,146	**$556,213***

➢ *** $556,213 is in the Board approved 2026-2027 EASD Budget**

2026-2027 BUDGET vs ACTUAL

	26-27 (Governor & EASD Budget)	2026-2027 - ACTUAL	DIFFERENCE
Basic Education	$11,755,681	$11,740,518	($15,163)
Special Education	$2,895,869	$2,898,046	$2,177
Ready To Learn	$1,657,596	$1,657,453	($143)
TOTAL	$16,309,146	$16,296,017	**($13,129)***

- ***EASD Revenue Budget is short $13,129**

Elizabethtown Area School District
Attn: Tom Strickler, CFO
600 E High Street
Elizabethtown PA 17022

Ref: Village District of Bainbridge Crossing Guards

Dear Tom,

Conoy Township is required by the Commonwealth of Pennsylvania to provide crossing guards at predetermined locations for students in our Township. Currently there are four locations that utilize a crossing guard in the Village District of Bainbridge: Race Street & 2nd Street, Hill Street & 2nd Street, Chestnut Street & 2nd Street, and Walnut Street & 2nd Street.

Conoy Township agrees to provide school crossing guards at the determined locations and will employ the crossing guards on a part-time basis. Conoy Township crossing guards are currently paid $15.00 per appearance. Each appearance is based off AM or PM. Conoy Township will invoice the Elizabethtown Area School District for 50% of the cost associated with the wages of the part-time crossing guards biannually in January and August for the prior 6 months. The average number of days a crossing guard will be utilized depends on the number of schools days in the school year. This number is approximately 176 days.

We look forward to continuing our partnership with the Elizabethtown Area School District in keeping our school children safe while enroute to and from school. Should you have any questions, please feel free to contact the township office at 717-367-4991.

Respectfully,

Jennifer Rabuck

Elizabethtown Area School District

Be it RESOLVED, that the Elizabethtown Area School District of Lancaster County hereby request a Public School Facility Improvement grant of $2,550,000.00 from the Commonwealth Financing Authority to be used for the roofing restoration projects at Bear Creek School and East High Street Elementary School, and the roofing replacement project at Bainbridge Elementary School.

Be it FURTHER RESOLVED, that the District certifies that it has secured and formally commits a cash matching fund contribution of $850,000.00 toward the eligible project costs. These matching funds are immediately available and fully secured.

Be it FURTHER RESOLVED, that the Applicant does hereby designate Tom Strickler, Superintendent of Schools, and Walt Smith, Director of Pupil Services, as the official(s) to execute all documents and agreements between the Elizabethtown Area School District and the Commonwealth Financing Authority to facilitate and assist in obtaining the requested grant.

I, Rebecca Maxwell, duly qualified Secretary of the Elizabethtown Area School District, Lancaster County, PA, hereby certify that the forgoing is a true and correct copy of a Resolution duly adopted by a majority vote of the Board of Directors for the Elizabethtown Area School District a regular meeting held August, 11, 2026 and said Resolution has been recorded in the Minutes of the Elizabethtown Area School District and remains in effect as of this date.

IN WITNESS THEREOF, I affix my hand this 11th day of August, 2026.

Memorandum of Understanding (MOU)

Between

Elizabethtown Area School District

and

Etown Mountain Biking Club

Purpose

This Memorandum of Understanding ("MOU") establishes the understanding between the Elizabethtown Area School District ("District") and the Etown Mountain Biking Club ("Organization") regarding the Organization's participation in the Pennsylvania Interscholastic Cycling League ("League") and the participation of District students in the Organization's activities.

This MOU is intended to define the relationship between the parties and clarify their respective roles and responsibilities. Nothing contained herein shall be construed as creating a District-sponsored activity, agency relationship, partnership, joint venture, or employer-employee relationship between the parties.

Affiliation

The District acknowledges that the Organization provides an opportunity for Elizabethtown Area School District students to participate in the League.
For purposes of League participation only, the Organization may identify itself as affiliated with Elizabethtown Area School District and may reference the District's name solely for team identification and student eligibility.

This limited affiliation does not establish the Organization as a District-sponsored, District-operated, or District-controlled program.

The Organization shall ensure that all coaches, volunteers, and individuals working with students maintain all required criminal history clearances, child abuse clearances, FBI certifications (when applicable), and any other certifications required by federal or Pennsylvania law.

Nothing in this Agreement places the Organization under the authority, supervision, or operational control of the District.

Program Operation

The Organization operates as an independent nonprofit organization and is solely responsible for the planning, administration, supervision, and operation of all practices, rides, events, competitions, fundraising activities, and related programs.
The District shall have no responsibility for directing or managing the Organization's operations.

Personnel

All coaches, ride leaders, volunteers, officers, and other individuals associated with the Organization are selected, trained, supervised, and evaluated solely by the Organization and are not employees, volunteers, agents, or representatives of the District.

Student Participation

Participation by District students is voluntary and occurs independently of the District's curricular, co-curricular, and extracurricular programs.

The Organization's ability to identify itself as affiliated with Elizabethtown Area School District is contingent upon active participation by District students in the Organization. Should the Organization cease to include participating District students, it shall immediately discontinue representing itself as affiliated with or associated with the District.

Student Recruitment and Solicitation

The Organization may share information about its programs and activities with District students and families through the District's established communication channels and procedures that are routinely available to school organizations. Any communications or promotional materials distributed through the District shall be subject to the District's review and approval.

Recognition by the District does not designate the Organization as a school-sponsored club, activity, or program. Organizations may communicate with students and families only through District-approved channels and do not receive independent access to students during the school day.

The Organization may invite student participation in its programs through these approved communication methods and shall not independently distribute materials to

students or collect student contact information through the District except as authorized by the District.

Use of District Name and Logos

The Organization may reference the District's name solely as permitted under the Affiliation section of this Agreement.

The Organization may identify itself as supporting or affiliated with the Elizabethtown Area School District or one of its schools; however, the Organization shall not use the District's official logo or other identifying marks, or represent itself as acting on behalf of or officially representing the District, without the District's prior written approval.

Nothing in this MOU grants the Organization any ownership interest or license to use the District's intellectual property beyond the limited permission expressly provided herein.

No District Endorsement

Nothing contained in this MOU shall be interpreted as an endorsement, sponsorship, recommendation, or certification by the District of the Organization, its programs, services, personnel, sponsors, or activities.

The Organization shall not state or imply that the District endorses or recommends the Organization except as expressly authorized in writing by the District.

Student Privacy

Organizations shall protect the privacy of students and comply with all applicable federal and state privacy laws. Student information obtained through the District may not be requested, collected, retained, shared, or used except as authorized by the District and permitted by law.

Facilities Use

Any use of District facilities shall be governed by the District's Facility Use Policy, administrative regulations, scheduling procedures, insurance requirements, and applicable rental agreements.

Approval of facility use under this MOU is not automatic and shall remain subject to the District's normal approval process.

Funding and Resources

The Organization is solely responsible for its funding, fundraising, equipment, uniforms, transportation, insurance, and operational expenses.

The District shall not provide financial support, activity accounts, school-sponsored transportation, personnel, or equipment unless separately approved in writing.

Liability

The Organization assumes full responsibility for its activities, participants, volunteers, employees, coaches, and guests, including activities conducted on District property. The District assumes no responsibility or liability for the Organization's operations, activities, or participants.

The Organization shall maintain any insurance required under District policy for facility use and shall provide proof of insurance upon request.

Indemnity Clause

The Organization agrees to indemnify, defend, and hold harmless the District, its directors, officers, agents, and employees, against any and all claims, suit, actions, debts, damages, costs, charges and expenses, including court costs and attorney fees and against all liability from property damage and personal injury, including death resulting directly or indirectly therefrom, arising from any acts or omissions of the Organization either active or passive, or those of its agents, employees, assigned, or any other person acting on its behalf in the performance of its obligations, duties and responsibilities under this Agreement.

Compliance with District Policies

While conducting activities on District property or in connection with this Agreement, the Organization agrees to comply with all applicable District Board policies, administrative regulations, visitor procedures, safety requirements, and applicable federal, state, and local laws.

Term and Termination

This MOU shall become effective upon execution by both parties and shall remain in effect until terminated.

Either party may terminate this MOU upon thirty (30) days' written notice.

The District may terminate this MOU immediately if the Organization materially breaches this Agreement, fails to maintain required clearances or insurance, violates applicable law or District policy, or engages in conduct that the District determines is inconsistent with the safety, welfare, or best interests of students or the District.

Entire Understanding

This MOU constitutes the entire understanding between the parties regarding the subject matter herein and supersedes any prior oral or written understandings relating to this relationship.

Any amendment to this MOU shall be in writing and signed by authorized representatives of both parties.

Acknowledgment

By signing below, the parties acknowledge that they have read, understand, and agree to the terms and conditions of this Memorandum of Understanding.

Policy Number	109
Title	Copy of Library Materials
Version	v1 · 7/29/2026 · DRAFT

Copy of Library Materials

Authority

The Board shall, by an affirmative vote of a majority of the full Board, provide for library materials in school libraries that implement, support and enrich the educational program of district schools. The Board institutes policy 109.1 to separately set forth standards governing age-inappropriate materials.[9]

The District seeks to provide library materials that would be of the greatest support to its educational objectives for the minor students in the District. The District's libraries exist to facilitate research and learning by furnishing materials that are of requisite quality, suitable for educational goals, worthwhile for the limited amount of time available to students, and most appropriate for minor students. The District's libraries do not exist to provide universal coverage but instead to provide materials aimed at its pedagogical goals and for the interest, information, and enlightenment of minor children, not adults. The school library is not a public forum, nor is the goal to encourage views from private speakers/authors.

This policy provides criteria for the selection, removal, and replacement of library materials, focused on maximizing transparency with parents and community members while meeting student needs to provide supplemental enrichment in their learning with appropriate materials.

Definitions

Library materials - materials such as books, audio recordings, reference materials, supplementary titles, digital and multimedia materials, magazines/periodicals, maps, subscription databases, and software & instructional materials either made available for circulation to students within the school library or material held in a classroom library. This term does not apply to a textbook and/or other instructional materials used within the school curriculum, which are covered by Policy 108 (Textbooks) [4]

Weeding - the systematic removal and disposal of library materials from a school library based on the weeding criteria contained in this policy.

Delegation of Responsibility

The Superintendent or designee shall be responsible for the recommendation, selection, maintenance, and weeding of all library materials.

Board Action. Library materials recommended by the superintendent/designee shall be adopted through a majority vote of the board of school directors at any regular meeting. Library materials that were not recommended by the superintendent/designee shall be adopted by a two-third vote of the board at any regular meeting. [2]

The Superintendent or designee shall establish administrative regulations for the selection of library materials.

An inventory of library materials provided by the district shall be digitally maintained by the Superintendent or designee and shall be available to Board members, district staff, students, parents/guardians and community members.[5]

Guidelines

Selection procedures for library materials shall be developed which:

1. Appoint appropriate grade level administrative and instructional staff to select library materials, subject to the approval of the Superintendent or designee.

2. Ensure the Board's budgetary allotment for library materials is spent efficiently and distributed equitably throughout the instructional program.

3. Consult a variety of reputable and well-established media sources before selections are made. Since knowledge of content is extremely important, standard, unbiased selection tools shall be used to guide librarians in their selection.

4. Ensure library materials are selected to provide for the interests and needs of the school community and the school program. These materials will be suitable for varied interests, abilities, reading levels, and maturation of the grade where they are to be used.

5. Ensure an inventory of library materials that is well-balanced and well-rounded in coverage of subject, types of materials, and variety of content. Materials selected should include various/opposing points of view concerning problems and issues of our history and current times so that students may develop critical reading and thinking skills.

6. Ensures that wherever possible, library materials shall represent varied segments of our society (i.e. religious, ethnic, gender, cultural groups, etc.) and their contribution to our heritage.

7. Takes into account clarity, adequacy, artistic value, format and scope of material in the selection process as well as validity, accuracy, objectivity and timeliness.

8. Ensure that library materials do not contain age-inappropriate content as defined in Policy 109.1.

9. All new library materials should be reasonably reviewed pre and post purchase and disqualified if the criteria outlined in any applicable district policy is not met. Upon enactment of this policy, staff need not conduct a search for compliance on existing materials. Existing materials will be reviewed during the normal weeding process or if a question about a particular book arises.

Weeding Library Materials

The administrative regulations developed under this policy shall include a continuous process of withdrawing library materials that are no longer suitable for the collection and shall include a safe and secure policy for discarding said materials. This process maintains the high level of quality and relevance of library materials and shall include, but not be limited to, withdrawing and discarding for the following reasons:

1. Poor physical condition.

2. Contains outdated content that is obsolete, inaccurate, or misleading.

3. Superseded by new or revised editions.

4. Seldomly circulated.

5. Duplicates (once popular but no longer in demand).

6. No longer suitable to the age group or interests of the readers.

7. Deemed to have inappropriate content per the criteria established in this policy and policy 109.1.

Gifts, Grants, and Donations of Library Materials

The district appreciates financial donations and gifts intended to sustain and support its school library system. Individuals or organizations wishing to make financial donations to support the district's libraries shall follow the procedures outlined in School Board Policy 702 - Gifts, Grants, Donations.[6]

The district shall not accept unsolicited donations or gifts of library materials for inclusion in school libraries. Individuals or organizations that wish to make gifts or donations in support of the district's school library system are encouraged to make a cash donation. An appropriate acknowledgment of such donations shall be made. The district reserves the right to accept or decline any cash donation or gift.

Procedure for Handling Challenged Library Materials

If a parent of a District student, student, administrator, teacher, or other stakeholder becomes aware that material may violate this or policy 109.1, they may inform the District in writing. The school receiving a complaint about the appropriateness of library materials shall try to resolve the matter informally through a telephone conference or meeting between the complainant and the designated administrator. The conference may also include other necessary staff members as deemed appropriate by the designated administrator.

If the complainant wishes to file a formal request for reconsideration, a copy of this policy and policy 109.1 shall be provided to the complainant by the administrator with instructions to submit the information requested below.

1. All formal concerns regarding library materials shall be submitted to the designated administrator, and shall state: 1) the complainant's name and contact information, 2) the name/author of the library resource, 3) cite page numbers and specific information in the material to support the objections, 4) if known, offer suggestions as to replacements that convey similar educational purpose that may have led to the objected material being included in the library in the first place, 5) and state whether the complainant is requesting a reevaluation of the material's inclusion or is simply making a request that the material not be checked out by the complainant's child.

2. The ddesignated administrator shall review the complaint and the challenged material and determine whether it conforms to the principles of selection, weeding, or age-appropriate standards set out in any District policy.

The major criterion for the final decision on challenged library material is the appropriateness of the resource for its intended educational use and intended audience of minor students. The plurality opinion in Bd. of Educ. v. Pico, 457 U.S. 853 (1982), uses the standard that no challenged instructional resource shall be removed because of the ideas expressed therein. Removal of materials may be based upon the lack of educational suitability of the library material, the lack of appropriateness for minors such as sexualized content, or pervasive profanity or vulgarity. It need not rise to the levels of obscene material or material which would violate criminal laws in order to warrant replacing the material with better options.

When a decision has been reached, the appropriate District-level administrator shall notify the complainant. The decision shall be in written form, dated, and provided to the complainant within ten (10) district business days of the decision.

If the designated administrator determines that a book is borderline in terms of age-appropriateness, the superintendent may convene a small group of educators, board members, and administrators to help make the decision and to consider whether an alternative resource would better fulfill a similar pedagogical purpose in a more age-appropriate manner.

Opportunity for Parent Review

In recognizing that parents hold an essential role in the education of their children and have the right to guide what their children read, each library shall maintain a printed list of materials onsite and on the school library website that shows what has been selected as well as what is slated for acquisition. Audio-visual materials are to be made available to parents for in-person review, upon request, on the same basis as printed materials are made available. Parents/guardians have the right to review student school records, including but not limited to library records of books checked out by their child.

Other Parental Considerations

In school libraries, students are afforded the opportunity to self-select texts as part of literacy development. While librarians are trained in selecting materials in accordance with Board policy and the outlined selection criteria and may provide guidance to students in selecting texts, the ultimate determination of appropriateness for a minor lies with the parent. School librarians, or designated campus administrators, are to encourage parents to share any considerations regarding their students' book selections. Parents may contact the campus librarian directly for library book or content opt-out decisions. School librarians will honor and accommodate individual requests by parents, within reason, which may include restricting specific titles or books.

Policy Number	109-1-2
Title	Copy of Age-Appropriate Standards for Library and Curriculum
Version	v1 · 6/21/2026

Copy of Age-Appropriate Standards for Library and Curriculum

Purpose

The Board institutes this policy to set forth standards governing age-inappropriate materials to ensure the district prioritizes inclusion of quality materials suitable for our educational goals. [1] [2].

Definitions

Materials include all library and curricular resource materials held in a school library, in a classroom, or as part of the curriculum.

Borderline materials – for purposes of this policy, are materials that the administration determines are on the border of age-appropriateness after using their best professional judgment.

Sex acts are defined as sexual intercourse, masturbation, sadism, masochism, bestiality, fellatio, cunnilingus, exhibition of genitals, any touching of the sexual or other intimate parts, or nudity if such nudity is depicted for the purpose of sexual stimulation or gratification. [3][4]

Implied sex act – depictions that explicitly imply that a sex act is about to occur, is occurring, or has just occurred.

Material harmful to minors – Material that would be illegal to give to minors[5] as defined by 18 Pa. C.S.A. 5903.

Guidelines for Avoiding Age-Inappropriate Material

The District recognizes that there exists a vast array of materials with rich educational content. It is the District's objective to choose material that provides such rich educational content appropriate to students in the District over material that may provide similar content but contains explicit sexual content, graphic violence, vulgarity, or profanity that is age-inappropriate or unnecessary for minors in school settings.

Parents/guardians have a wide range of options outside of the District's library system to introduce their child to content they deem appropriate for their child's age. District Administrators will use their professional discretion to ensure the District prioritizes quality materials that meaningfully support educational goals, are suitable for students' limited time, and are free from age-inappropriate content.

Additional Guidelines for Avoiding Age-Inappropriate Sexually Explicit Material

Explicit sexual content may be inappropriate for minors in a school setting, even when it does not meet the legal definition of material that is criminally prohibited from being provided to minors. The criminal standard—whether material, taken as a whole, appeals to prurient interests in sex and lacks serious literary, artistic, historical, or scientific value for the intended audience—sets a minimum legal threshold, not the full measure of age appropriateness in schools.

The following sets forth objective district standards governing age-inappropriate sexually explicit materials. Borderline cases may still arise where a judgment call must be made, and administrators will use their professional discretion in applying the policy to such instances of Borderline materials, and consider whether the work is classical art or literature that has demonstrated enduring value over generations and has had significant influence on literature, art, or society.

High School

Neither the High School Library, nor any classroom library or curricular resource material shall contain the following:

1. Material that would be illegal to give to minors, as defined as harmful to minors in 18 Pa. C.S.A. 5903,

2. Visual or visually implied depictions of sex acts or simulations of such acts,

3. Explicit written descriptions of sex acts, or

4. Visual depictions of nudity – except for science and health instruction, breastfeeding, or classical works of art.

Middle School

Neither the Middle School Library, nor any classroom library or curricular resource material shall contain the following:

1. Material that would be illegal to give to minors, as defined as harmful to minors in 18 Pa. C.S.A. 5903,

2. Visual or visually implied depictions of sex acts or simulations of such acts,

3. Explicit written descriptions of sex acts, or

4. Visual depictions of nudity – except for anatomical diagrams for science and health instruction, breastfeeding, or classical works of art.

Elementary School

Neither the Elementary School Library, nor any classroom library or curricular resource material shall contain the following:

1. Material that would be illegal to give to minors, as defined as harmful to minors in 18 Pa. C.S.A. 5903,

2. Visual or visually implied depictions of sex acts or simulations of such acts,

3. Explicit written descriptions of sex acts,

4. Nonexplicit written references to sex acts, except for the purposes of teaching students to avoid and report molestation, or

5. Visual depictions of nudity or depictions that imply a person is not wearing clothing/swimsuit, where private areas are strategically covered or not shown, but where such depictions are intended to draw the viewer' attention to the person's private areas.

District libraries must also comply with the Children's Internet Protection Act (CIPA)[6] as specified in 47 U.S.C. §254(h)(5), including technology protection measures, and all state and federal laws relating to the prohibition on pornographic and other harmful materials for minors.

Student Possession in School: Students may not possess material that would be illegal to provide to minors pursuant to 18 Pa. C.S.A. 5903. However, while neither the school nor school employees may provide age-inappropriate materials to students, this policy does not prohibit student possession of their own materials other than those that violate 18 Pa. C.S.A. 5903.

Outside Review Sites: Resource review sites may be used to assist staff and board members as to what books are of interest to certain age groups, but these sites may not be used in place of the age-appropriate standards set forth in this policy.

Policy Number	815.1
Title	Use of Generative Artificial Intelligence in Education
Version	v2 · 8/4/2026

Use of Generative Artificial Intelligence in Education

Purpose

The purpose of this policy is to ensure the ethical, responsible, and effective use of artificial intelligence (AI) technologies in support of teaching, learning, and district operations while safeguarding student privacy, data security, academic integrity, and equitable access to educational opportunities. Through the establishment of clear expectations and procedures, the Board seeks to promote transparency, accountability, digital literacy, and the safe and appropriate use of AI within the district learning environment.

Authority

This policy applies to all students, employees, contractors, volunteers, and other authorized users of district technology resources. The Board directs that the use of Generative AI in the educational environment shall be limited to approved educational purposes and shall comply with applicable state and federal laws, regulations, Board policies, administrative regulations and school rules including, but not limited to, the Family Educational Rights and Privacy Act (FERPA), the Individuals with Disabilities Education Act (IDEA), the Americans with Disabilities Act (ADA), the Children's Internet Protection Act (CIPA), the Children's Online Privacy Protection Act (COPPA), as well as Board policies related to acceptable use of computers and network resources, student and staff conduct, copyright protections, student records, personnel records, bullying and cyberbullying, nondiscrimination and harassment, data security and staff and student expression.[1][2][3][4][5][6][7] **[8] [9] [10] [11] [12] [13] [14] [15] [16] [17] [18] [19] [20] [21] [22] [23] [24] [25] [26] [27]**

The Board directs that only district-authorized AI tools may be used on district-owned devices, district networks, or within district educational programs. Staff shall consult the district's approved list of AI tools and resources prior to implementation or instructional use. Unauthorized AI tools may not adhere to district standards related to student safety, accessibility, data privacy, cybersecurity, monitoring, or legal compliance.[3] **[8] [10]**

The availability of access to AI tools through district technology or networks does not constitute district endorsement of any AI-generated content, output, recommendation, or response. The district does not guarantee the accuracy, completeness, reliability, or appropriateness of information generated by AI systems.

The district shall not be responsible for data loss, unauthorized disclosures, financial charges, damages, or other liabilities resulting from the unauthorized, improper, or personal use of AI tools or platforms by students, staff, or other users.

Employees and students shall not input confidential, personally identifiable, protected, privileged, or otherwise sensitive district, staff, or student information into non-approved AI systems or platforms.

Nothing in this policy shall be construed to limit or alter the district's obligations under applicable law, regulation, collective bargaining agreement, or Board policy.

Definitions

AI literacy – the ability to understand, evaluate, use, and interact with AI systems responsibly, safely, and effectively.

Artificial Intelligence (AI) – Artificial intelligence (AI) refers to computer systems and algorithms that mimic human cognitive functions, such as learning, reasoning, problem-solving, and decision-making. AI encompasses a broad spectrum of techniques and methodologies, including machine learning, natural language processing, computer vision, and robotics, aimed at creating intelligent systems capable of performing tasks autonomously or with minimal human intervention.

Generative Artificial Intelligence (Generative AI) – an advanced subset of AI that is capable of generating new content from learned data and pattern recognition across various mediums such as text, code, images, audio and video data. Generative AI is the focus of this policy.

Open-source AI – AI systems, models, or tools whose source code or underlying architecture is made publicly available for use, modification, and distribution pursuant to open-source licensing terms.

Delegation of Responsibility

The district shall make every effort to ensure that Generative AI tools and resources are used responsibly by students and staff. The effective integration of Generative AI into education requires a collaborative effort between administration, teachers, staff, students, and families.

The district shall annually notify staff, students, parents/guardians, and other users of this policy through publication on the district website. The district shall also maintain and publish, as appropriate, a list of district-approved generative AI tools and related guidance concerning acceptable use, data privacy, and instructional expectations.

Generative AI tools and resources used in district schools and programs shall be evaluated and authorized on an ongoing basis for age-appropriateness, bias, privacy protections, accessibility standards and data security by the following individuals: [8] [9] [10] [27] [28]

1. Superintendent.
2. Building principals.
3. Director of Information Technology.
4. Director of Curriculum and Instruction

Unauthorized Generative AI tools and resources may not adhere to required data privacy, monitoring, and security standards.[3] [25] [27]

The Superintendent shall develop procedures to implement this policy, and may delegate to his/her designee(s) the right to enforce this policy.

The district solicitor, in coordination with the Director of Information Technology, shall evaluate new and existing vendor contracts, collective bargaining agreements and related agreements for impacts related to district use of Generative AI. [34] [35]

The Superintendent or designee shall convene an Artificial Intelligence (AI) Task Force to maintain awareness of emerging technologies, educational trends, legal and regulatory developments, ethical considerations, cybersecurity and data privacy issues, and best practices related to the use of AI in education. The Task Force may provide guidance and recommendations to support the responsible implementation and ongoing evaluation of AI tools and practices throughout the district.

Guidelines

The district shall make reasonable efforts to ensure equitable access to approved AI instructional resources and opportunities for students.

Instruction on AI Tools

The Board directs that students at all grade levels receive age-appropriate instruction on the proper use of AI tools, encompassing fundamental principles such as the necessity of proper human supervision, critical thinking, and skepticism regarding accuracy. Such instruction should aim to empower students with the knowledge and skills needed to navigate the increasingly prevalent presence of AI technologies in their academic and personal lives. By fostering a culture of responsible and informed use, students will be better equipped to navigate AI tools effectively while understanding their limitations and ethical implications.

Instruction and student access to generative AI tools shall be differentiated by grade level as follows:

Elementary School (Grades K–5) - Students shall not use generative AI tools. Instruction at this level shall be limited to foundational digital literacy concepts, including understanding that AI technologies exist, that online information may not always be accurate, and the importance of originality, critical thinking, and safe technology practices.

Middle School (Grades 6–8) - Student use of generative AI tools may occur only under direct staff supervision and solely within approved instructional activities. Instruction shall emphasize appropriate and ethical uses of AI, including responsible prompting, verification of information, protection of personal information, academic integrity, bias awareness, and understanding the limitations of AI-generated outputs. Use shall be limited to district-approved platforms and educational purposes.

High School (Grades 9–12) - Students may use district-approved generative AI tools for educational purposes consistent with district guidelines, course expectations, and teacher direction. Instruction shall include advanced concepts related to responsible AI use, including evaluation of AI-generated content, transparency and citation practices, intellectual property considerations, data privacy, bias and misinformation, and appropriate workplace and academic

applications. Teachers may integrate AI tools into instruction, research, writing, problem-solving, and career-readiness activities when aligned with curricular goals and academic integrity expectations.

Academic Honesty

The Board recognizes the capacity of AI to complete many student assignments. In doing so, AI has the potential to significantly impact traditional academic integrity and plagiarism standards.

It is the responsibility of all teachers to provide students with notice of whether AI use is permitted on a particular assignment or project.

Teachers retain discretion to determine the level of permitted AI use for assignments, assessments, and coursework consistent with district guidelines.

Teachers should use the following scale for guidance:

0 - No AI Use

The assignment is completed independently without the assistance of AI. No disclosure required.

1- AI-Assisted Idea Generation

AI is used for brainstorming and generating ideas only. No disclosure required.

2 - AI-Assisted Editing

AI is used to edit or refine student work, but not to generate content. Student must disclose how AI was used.

3 - AI for Specific Task Completion

AI may be used to assist with certain elements of a task or project under human oversight and evaluation; however, fully AI-generated content shall not be submitted as original student work. Student must disclose how AI was used.

4 - Full AI Use with Human Oversight

AI may be used throughout the assignment. The student is responsible for providing human oversight and evaluating the AI-generated content. Student must disclose how AI was used.

Having received such notice from a teacher, any student who violates these standards is subject to discipline including detention, suspension, or expulsion depending on the nature of the violation.

The Superintendent or designee shall develop administrative guidelines governing approved AI tools, student access, staff oversight responsibilities, data privacy protections, and acceptable educational uses consistent with applicable law and Board policy.

Acceptable Use

All students and employees shall comply with the District's Policy on the Acceptable Use of District Technology when using AI tools on school district technology. Violations of the District's Acceptable Use Policy may result in disciplinary action against the student or employee.

Student use of AI tools while using District technology or engaged in District activities is also governed by the Student Code of Conduct, which is hereby incorporated by reference.

Grading Student Work

Approved AI websites and applications may be used to assist with the grading of student work product, but final decisions on assignment grades shall be determined by teachers and not solely by AI technology. Teachers shall comply with District data privacy procedures and take appropriate measures to protect personally identifiable student information when using such grading technology.

AI Use in Operations

The Superintendent or designee shall establish protocols to verify the accuracy and reliability of the output from AI tools prior to the use of such tools for budgeting, payroll, financial or population forecasting, HR analytics, and similar operational tasks. District employees utilizing AI tools for operational purposes shall remain responsible for reviewing, validating, and exercising human judgment regarding AI-generated outputs and recommendations.

While AI tools may be used to assist in HR processes so long as the protocols above are in place, the Board directs that final decision-making regarding employee evaluations, promotions, and hiring shall be made by human administrators and not solely through AI systems to ensure fairness, equity, and compliance with anti-discrimination laws.

Professional Development

The Board directs the Superintendent to provide regular professional development training for administrators, teachers, and staff on the ethical and appropriate use of AI in school. The training should equip educators, administrators, and staff with the knowledge and skills necessary to integrate AI tools into their roles in the District while also addressing data privacy, legal compliance, and ethical considerations.

CIPA Compliance

The Director of Technology shall implement internet filtering and monitoring measures designed to reasonably limit access to AI tools or websites that are primarily intended to generate or distribute obscene or pornographic material, in accordance with CIPA requirements.

FERPA Compliance

All teachers, administrators, and staff are required to adhere strictly to the regulations outlined in the Family Educational Rights and Privacy Act (FERPA) when utilizing any AI resources.

Employees shall not input confidential, personally identifiable, protected, privileged, or otherwise sensitive student, staff, or district information into non-approved AI systems, platforms, or applications.

The District prohibits the disclosure or input of personally identifiable student information while using AI websites, tools, or applications that have not been pre-approved by the Director of Technology or his/her designee. The Director of Technology shall establish a process by which teachers and administrators can request the approval of new AI resources. The vetting process shall include a review of the tool’s privacy policy, data handling practices, and compliance with FERPA. The Director of Technology or designee shall maintain a list of all such approved resources.

Consequences for Inappropriate Use

Failure to comply with this policy or district rules regarding appropriate use of Generative AI including, but not limited to, acceptable use of computer and network resources, shall result in usage restrictions, loss of access privileges, disciplinary action and/or referral to legal authorities. **[12] [16] [21] [25] [40]**

Students and staff must immediately report any violations or suspicious activity to the building principal or designee.

Users of Generative AI shall be responsible for damages to the equipment, systems, platforms and software resulting from deliberate, malicious or willful acts. **[25]** [41]

Illegal use of Generative AI; intentional modification without permission or damage to files or data belonging to others; copyright violations; and theft of services shall be reported to the appropriate legal authorities for possible prosecution.

This policy shall also apply to student conduct that occurs off school property or during nonschool hours to the same extent as provided in Board policy on student discipline. **[12] [16] [25] [40]**

Elizabethtown Area School District
Attn: Tom Strickler, CFO
600 E High Street
Elizabethtown PA 17022

Ref: Village District of Bainbridge Crossing Guards

Dear Tom,

Conoy Township is required by the Commonwealth of Pennsylvania to provide crossing guards at predetermined locations for students in our Township. Currently there are four locations that utilize a crossing guard in the Village District of Bainbridge: Race Street & 2nd Street, Hill Street & 2nd Street, Chestnut Street & 2nd Street, and Walnut Street & 2nd Street.

Conoy Township agrees to provide school crossing guards at the determined locations and will employ the crossing guards on a part-time basis. Conoy Township crossing guards are currently paid $15.00 per appearance. Each appearance is based off AM or PM. Conoy Township will invoice the Elizabethtown Area School District for 50% of the cost associated with the wages of the part-time crossing guards biannually in January and August for the prior 6 months. The average number of days a crossing guard will be utilized depends on the number of schools days in the school year. This number is approximately 176 days.

We look forward to continuing our partnership with the Elizabethtown Area School District in keeping our school children safe while enroute to and from school. Should you have any questions, please feel free to contact the township office at 717-367-4991.

Respectfully,

Jennifer Rabuck
Municipal Administrator
Secretary/Treasurer

Elizabethtown Area School District

Be it RESOLVED, that the Elizabethtown Area School District of Lancaster County hereby request a Public School Facility Improvement grant of $2,550,000.00 from the Commonwealth Financing Authority to be used for the roofing restoration projects at Bear Creek School and East High Street Elementary School, and the roofing replacement project at Bainbridge Elementary School.

Be it FURTHER RESOLVED, that the District certifies that it has secured and formally commits a cash matching fund contribution of $850,000.00 toward the eligible project costs. These matching funds are immediately available and fully secured.

Be it FURTHER RESOLVED, that the Applicant does hereby designate Tom Strickler, Superintendent of Schools, and Walt Smith, Director of Pupil Services, as the official(s) to execute all documents and agreements between the Elizabethtown Area School District and the Commonwealth Financing Authority to facilitate and assist in obtaining the requested grant.

I, Rebecca Maxwell, duly qualified Secretary of the Elizabethtown Area School District, Lancaster County, PA, hereby certify that the forgoing is a true and correct copy of a Resolution duly adopted by a majority vote of the Board of Directors for the Elizabethtown Area School District a regular meeting held August, 11, 2026 and said Resolution has been recorded in the Minutes of the Elizabethtown Area School District and remains in effect as of this date.

IN WITNESS THEREOF, I affix my hand this 11th day of August, 2026.
