

New Dog on the Block

This year, you will participate in a newly structured Big Dog Challenge that leverages the latest in innovative thinking; Human Centered Design. HCD is an innovative process that begins with exploring opportunities and ultimately creates small scale test of potential solutions.

To get started use the “Kibble” button to post your food for thoughts. You can post as many as you would like, just use a new form for each new kibble.

*Note: Kibble is a story, a problem, an opportunity, an unmet need, a painpoint, an experience, the start of a conversation. Kibble is **not** the idea, **not** the answer, and **not** the solution.
