The objective of the health and safety program will be to provide a safe and healthy learning environment; to increase safety awareness; to help prevent accidents, illnesses, and injuries; to reduce liability; to assign duties and responsibilities to Nova Classical staff to implement and maintain the health and safety program; to establish written procedures for the identification and management of hazards or potential hazards; to train Nova Classical staff on safe work practices; and to comply with all health and safety, environmental, and occupational health laws, rules, and regulations.

Each recommendation shall include estimates of annual costs of implementing and maintaining that proposed recommendation. The Executive Director may request that the health and safety advisory committee established under Minnesota Statutes section 182.676 carry out all or part of the duties of the advisory committee, or the advisory committee may consider recommendations from a separate safety committee established under Minnesota Statutes section 182.676.
