# 2023 A-F Refresh: Timeline

# Calculating an Overall Rating: Methodology

We use the higher score between *how much students know and can do* (**Student Achievement**) or *how much better students are doing than last year or than peers in similar districts/campuses* (**School Progress**) and weight it at **70%**.

We then weight *how well districts and campuses are closing performance gaps* among different student groups (**Closing the Gaps**) at **30%**.

Better Of:		Plus:
Student Achievement	School Progress	Closing the Gaps
		
Evaluates the performance across all subjects for all students, on STAAR, College, Career, and Military Readiness (CCMR) indicators, and graduation rates.	Measures outcomes in two areas: number of students that grew at least one year academically and the achievement of students relative to districts or campuses with similar economically disadvantaged percentages.	Uses disaggregated data to demonstrate differentials among racial or ethnic groups, socioeconomic backgrounds and other factors.
<b>70% of Total Grade</b>		<b>30% of Total Grade</b>

*Unchanged from 2018 for both districts and campuses.*
