Division: Student Services

Subject: UPDATE Demographic Update Q3 2025

Background Information:

- Lewisville ISD has contracted with Templeton Demographics since September 2013.
- There was a name change from Templeton to Zonda.
- Zonda Demographics provide quarterly updates directly to the Board following the 1st and 3rd quarters.
- The Q3 2025 report was delivered during the November board meeting.
- The board voted to adjust Mill St. Elementary school purpose.

Administrative Consideration:

Administration uses demographer reports for enrollment projections, staffing considerations, and as a means of anticipating future changes in enrollment by campus. The 10 year forecast has been adjusted to indicate the Mill St. repurposing.
