

## **Board Report for September 8, 2014**

### **Maintenance:**

We are trying to catch up on work orders but we are struggling a little. Hopefully we will get back on track. Roofer hopefully has come by now to look and fix leaks. Had some problems with the new A/Conditioners and Kyle has come out to fix those. We still have two older units down on the band hall. We have built walls, paint football field, replaced ceiling tile, fix lights and etc. We are working as hard as we can.

### **Transportation:**

BB-1 air conditioner is fixed. Bus 52 is fixed also. So far everything is going okay. I have had a few problems here and there to fix. VanHool had a problem with A/C but it is fixed, I hope.
