**Principal's General Narrative:**

Summer is flying by. Maintenance and custodial staff are busy getting everything ready for a new school year. The technology staff is busy getting all of the computers and technology accessories ready and moving video conferencing equipment to accommodate more dual credit offerings during the 2009-2010 school year. We have completed the schedules for the students (mostly Louisa Stone and Alex Rosas). And textbooks and consumables have been ordered and are starting to arrive. We still have some chores ahead of us like preparing for staff development, putting the final touches on the handbook, processing incoming textbooks, and various other tasks but everything is on schedule to have a good start for the new school year.

The high school faculty, as always, would like to express our appreciation for the support and leadership from the school board, superintendent, and everyone in the central office. Thanks.
