Finals Week & COVID

Our finals week started immediately the second week of January and our 1st semester ended on January 17. With the hard hit of Omnicron in the New Year, our students and staff scrambled to make plans for review, finals and incompletes. Parents contacted our counselors and attendance clerk up into the next semester. We are still working with families to support our students.

PIR Wellness Day

Mr. Kicking Woman, Ms. Woolf, Dr. Johnson, III and Mr. Bird collaborated to create professional development in mindfulness activities for staff focusing on physical, mental, emotional and spiritual health. A paint and pour activity was provided and all staff went away with their own painting. As organization is also a way to provide mindfulness, teachers were given some time to organize their google classrooms for the new semester. Being able to connect with colleagues on a personal level was so powerful for all staff.

Award Ceremony

Our 1st semester awards ceremony was successful! 260+ award recipients were honored with public recognition a certificate, a pass to the game and a praise song. Honor Roll, Citizenship, Classroom, Dual Enrollment, and Attendance awards were given by Advisors, teachers, Gear Up staff and the attendance clerk. Our students were deserving of the many awards and our student population honored their classmates with respectful behavior.

New staff

Since December we have welcomed new staff members: Taylor Crawford ENG 12, Dawn Jones ENG 9/10 itutor, Julie Alberlan Self Contained itutor, Abigail "Biga" Marshall and Joshlynn Snow TRIO Pre-College Advisor. We are utilizing Odysseyware for our World History and World Geography.

Reset Expectations

A letter was sent with grades explain our resetting of expectations for the 2nd semester and we are working diligently with these protocols.

Dual Enrollment

We have 4 classes at BHS that are Dual Enrollment course for Blackfeet Communtiy College- Biology with a lab, College Algebra and History of the Pikanii. Currently we have 31 students enrolled in those courses! They will be earning college credits! We have doubled that number from last semester!

We encourage you to see and acknowledge the positives we have going on here at BHS!
