**Re: Approval of BSN Sports for the purchase of field and track equipment for Buddy Echols Field**

---

The 2023 Bond election, Proposition C, includes the replacement of the field and track equipment at Buddy Echols Field. While the actual runways and pit will be constructed under our Core Construction contract during the summer of 2025, the track department is in need of the high jump and pole vault equipment for this track season

The proposal from BSN Sports was procured in accordance with Texas Education Code §44.031 through the district's membership with the TASB Buyboard Purchasing Cooperative. The total cost of the equipment is \$66,547.91. This is well within the dollars allocated for this equipment.

**RECOMMENDATION: That the Coppell ISD Board of Trustees approve the proposal from BSN Sports for the purchase of field and track equipment for Buddy Echols Field at a total cost of \$66,547.91.**
