Keep informed, here are some helpful tools for school closure -

► School Messenger System

School Messenger is an automated calling system that the District uses for attendance calls, to notify parent of special events, but most importantly to notify parents of an unexpected, weather related, school closure. The system will call the phone numbers that is in your child's student record. For returning students, our schools provide to parents a print out of the parent contact information that is a part of your child's student record. It is **VERY IMPORTANT** that our schools have the most current parent contact information.

Please review and update your child's parent contact information at the beginning of the year and any time during the year that contact information changes.

► FlashAlert System

FlashAlert is the service we use to provide notice of emergency closures to the Portland television and radio stations. The system will send you a text and/or email message. You may log in and request a test message to revalidate your account. To subscribe to this service, you can go to the District website @ nknsd.org and go to the Parent link and click on the FlashAlert Signup. You also can download the iOS/Android app FlashAlert Messenger to your phones and link it to your account, <http://flashalert.net/news.html?id=1123>
