

Marti Turner
Executive Director of Curriculum-Instruction & Special Programs

January 19, 2016

I have attended training for District Testing Coordinator at Region 12 to insure that testing protocols will meet TEA requirements. I will be meeting with Charles Tims, the PSP at the high school on Friday, January 15th, to discuss progress being made on that campus. We will be evaluating progress as a district, as well as individual campuses on our Targeted Intervention Plans and submitting those updates February 10th.

We will have a TEA monitoring call with Steve Hamman on February 26th. He will be focusing primarily on our progress in writing on each campus.
