

Positive Happenings

LINK: Life Skills - Independence - Networking - Knowledge

LINK: Life Skills - Independence - Networking - Knowledge

The LINK program serves adults with disabilities and focuses on offering opportunities that promote life skills, independence, networking, and knowledge. Summer of 2019 activities included backyard games, picnics in the park and mini-golf. This fall LINK will offer a variety of activities including dance instruction, pumpkin painting, holiday parties and arts and crafts nights.

Special Event

LINK participants will be meeting adults with disabilities from around the state for a fall riverboat cruise. We anticipate nearly 300 participants and caregivers to fill the boat and enjoy lunch while cruising down the Mississippi. We are fortunate to be part of CEND (Community Education Network on Disabilities) which provides one or two opportunities each year for adults with disabilities to get together for a large event.

What's New?

We are very excited to be working with Reid Fore, FLAS Special Education Teacher, to develop a Unified Basketball team with the Special Olympics that will start this winter. The team will consist of up to 10 student athletes with developmental disabilities and 5-8 student partners without developmental disabilities.
