

# **AGENDA**

## **Item**

GOAL: 1

OBJECTIVE: 1

---

### **SUBJECT:**

Consider Board approval of the Expedited Waiver for the Teacher Data Portal of the Texas Assessment Management System.

### **RATIONALE:**

The Teacher Data Portal of the Texas Assessment Management System is a data system provided to Districts across the State to view historical student data on state assessments. Districts that already have a data management system in place may apply for a waiver which allows them to more fully implement the data management system with which their staff is already familiar. Huntsville Independent School District already has the Eduphoria School Objects: Aware student data management system in place. The Eduphoria system continues to be fully operational, and our staff is trained in its use. This system allows staff to look at student historical data, as well as current data from benchmarks, common formative assessments, and state assessments.

### **RECOMMENDATION:**

The administration recommends Board approval of the expedited waiver of the Teacher Data Portal of the Texas Assessment Management System for the 2025-2026 and 2026-2027 school years.
