Re: Approve the Summer 2025 Employments

Recommended Action:

It is the recommendation of the administration that the Board of Education approve the 2025 Summer Employments of Jaden Aldaco and Cal Doucet at a rate of \$15 per hour.

Background Information:

As we have a very busy summer of cleaning and preparing additional rooms with the extension of the SASSED lease it is the recommendation to hire Jaden Aldaco and Cal Doucet to help with some of the tasks. There are plenty of projects that are a minimal cost to the district, but will make a large impact for the school year.

The small group rooms in the middle school and intermediate halls are in need of paint. The old storage area between Dave Baum's office and the Green Screen room needs shelving moved downstairs to the maintenance hallway since that area is now the Green Screen room for next school year. Grace Shelly's classroom also needs to be painted as her 2025-2026 classroom is the previous Green Screen room. All four small group rooms in the intermediate and middle school hallways need painting. The Central Area conference room has some patch work from holes and will also need to be repainted as well. In addition to these projects there is a lot of landscaping work and general clean up they can do to help our team be able to focus their time of cleaning the classrooms, carpets, waxing floors, and preparing both buildings for next school year.
