Dear Ms. Guardipee-Hall, Superintendent,

I visited your High School September 10th and want you to know that I observed a very orderly and structured school. I often tell teachers and administrators "Your school speaks, what does it say?" I have to tell you the environment

was conducive for instruction and learning. I was in over 24 classes during our walkthroughs and was impressed with the Framework items that we saw as well as lessons being taught. As I told you I have been involved with Browning High School off and on over an approximate 17-year period and this visit was a standout due to the climate and culture of learning that I observed. (Even being Spirit Week).

I say to you, "Keep up the good work." We do have some challenges that can be addressed through targeted coaching and instructional expectations. Mr. Salois and Ms. Juneau are well aware of those areas and have begun the planning to address them.

I will return in October and cannot wait to see the components of good instructional practice and the proper support of students who have challenges. I will provide a PD on the afternoon of Wed. October 24 for all H.S. staff around "active engagement" and ways to engage the learner.

It was great to meet your staff and I look forward to our partnership in creating positive student engagement and teacher relationships.

Sincerely,
Angelee Eames, Senior Consultant MCLP
