6. SPECIAL TERMS, CONDITIONS, or OTHER REQUIREMENTS

6.1. Special Conditions for 10 Gbps Customer Port Connections

Basic Ports with transmission speeds of 10 Gbps are available only under custom/ICB contracting arrangements and may not be fully supported by the Network on Demand ordering process. Once Customer has ordered, and AT&T has installed, such Port(s), Customer may use the AT&T Business Center Portal to request and schedule changes to the CIR (subject to the port configurations shown in Attachment A, Table 2) or CoS, or to establish or change EVCs.

EVCs can be ordered in 1 Mbps increments. The maximum EVC CIR will be 1,000 Mbps unless AT&T, in its discretion, otherwise approves an EVC CIR on an Individual Case Basis. Approved configurations will be made available through the Business Center Portal. Customer may use the Business Center Portal to make changes to an EVC, subject to the approved maximum CIR for the affected EVC. Real Time Class of Service is not available for EVCs exceeding 1,000 Mbps. Customer may not increase the CIR of any EVC above the approved maximum without AT&T's approval.
