

WE>I

FEBRUARY BOARD MEETING

"WE>I" is a reminder that we should prioritize the needs and well-being of the collective group over our individual desires. It's a call to action for us to work together towards a common goal and to value the opinions and contributions of others. In a world that often encourages individualism, the message "WE>I" serves as a powerful reminder that we can achieve great things when we work together and support one another.
