

RT 1 (L) IL 134 at Gavin South Middle School District 37 Entrance

July 7, 2015

Mr. Thomas Gallenbach
Traffic Permit Engineer
Division of Highways/Region One/District One
201 West Center Court
Schaumburg, Illinois 60196

Dear Mr. Gallenbach,

I'm writing to officially commence the process of seeking two supplemental amber flashing beacons to be post-mounted above each of the school entrance signs found just to the east and west of our South Middle School & District #37 Central Offices entrance.

An aerial photo is enclosed. IDOT just added "feet to entrance signs" below each sign. The sign to our west is 600 feet from the entrance and the sign to the east is 400 feet from the entrance. I have also enclosed a letter from John A. Fortmann as well as a memo I sent to Corey Jucius, Jim Stoner, John Fortmann, and Chad Riddle that I will hope assist you in the permit process.

I am aware that once I get formal correspondence back from you, the school district will be responsible for all costs association for the engineering, construction, and future maintenance of the beacons. The district has already started the process of contacting an engineer. Thank you for your attention to this matter and please let me know what actions the district needs to take to expedite the highway permit process.

Sincerely,

Dr. John Ahlemeyer
Superintendent of Schools – Gavin SD 37
