THS 6A ATHLETICS DEPARTMENT RESEARCH FOR 2019-2021; COST, MILEAGE, TIME

The cost savings for Tupelo Athletics remaining in the 6A Region I for the 2019-2012 athletic classification years is reflected in the research charts and explanation guides. The findings show an annual travel savings of in excess of \$7,000 and a tremendous amount of time saved for students to prepare for academics. Many charts were presented to MHSAA on behalf of Tupelo Athletics to help them have the information needed to make such an important decision. We appreciate the relationship we have with the MHSAA and their continued support for our athletic programs.

UPDATE – 6A ALL SPORTS AWARD FOR 2018-19 SCHOOL YEAR

The unofficial calculations by the Tupelo Athletics Department for the 2018/19 Clarion Ledger 6A All Sports Award have been completed for the seven fall sports teams. We have charted the top eight 6A teams in the state currently, but that could change as we follow the winter and spring sports. The six winter sports teams are now competing, followed by the ten spring sports teams starting next semester. We will update the chart as these seasons end. These unofficial calculations are based on our decoding research of the points awarded on the system instituted by the Clarion Ledger and are subject to change at any time.
