March School Board Meeting 2017
Medford Elementary School
Mr. Ristau – Elementary Principal

Teachers have met for their spring data days to prep for the MCA's. As a result, new intervention groups were formed based on focus areas/strands. Goals for students, classrooms and grade levels were established as well. The MCA window is currently open. Students in grades 3-6 here at M.E.S will be testing in math and reading, beginning April 17th. Students in grade 5 will also take a science test the first week of May.

6th Grade went to the Eagle Bluff Environmental Learning Center February 1st – 3rd. The trip was a success as students and adults had fun and took away some valuable learning experiences. Thanks to Mr. Cole, Ms. Markham and Mrs. Feldhake for coordinating the trip. A good group of chaperones also made the trip successful.

I Love to Read Month concluded with a Dr. Seuss Breakfast on March 2nd that served nearly 400! Special thanks to our kitchen staff and teachers that helped coordinate.

The annual Science Fair will be held on March 16th.

Grandparents Day is March 24th. This is a big day for our kindergarteners and first graders. Grandparents come from all over the state to spend time with their grandchild. The day consists of a zoo/animal presentation in the auditorium followed by a social in the commons after.

Staff will be trained in CPR and defibrillator use on March 27th.

Reading curriculum representatives will meet with teachers on the curriculum search committee on April 6th.
