Sheila A. Alles, Director

Academic Services Department

July 15, 2015

TO: Dr. Randy Liepa

FROM: Sheila Alles

SUBJECT: iREADY DIAGNOSTIC ASSESSMENT RECOMMENDATION

I am requesting that the following recommendation for an online, adaptive assessment program for elementary math and reading be placed on the July 20, 2015, Board Curriculum Committee agenda. The recommendation is to purchase iReady Diagnostic Math for use in all grades in our elementary schools to replace the current, district-developed math assessment and to purchase iReady Diagnostic Reading for use in all grades in select elementary schools. Both Math and Reading iReady Diagnostic Assessments align with our curriculum and reflect the type of items students experience on the M-STEP assessments. The Math and Reading iReady Diagnostic Assessments have been piloted at the Title I schools and the elementary principals support this recommendation.

## i-Ready Diagnostic Assessments - Math and Reading
