Map Testing at the High School:

The chart below shows the % of students at or above grade level. So the 2021 9th graders in Math had 33.02% of the students at grade level. This year as 10th graders there are 40% of our students at grade level. That is a positive! It shows that we were able to get some students at grade level that weren't at grade level to start last year.
