

I. PURPOSE

- A. The purpose of this policy is to provide guidelines for community use of school district facilities and equipment. The district is committed to make available the use of school facilities to all citizens of the district. School district facilities rules and regulations, under this policy, shall apply to all property owned and managed by the school district and shall be in effect at all times when the school property is not in use for regular educational programs.

II. GENERAL STATEMENT OF POLICY

- A. Forest Lake Area Schools believes that the public schools are owned and operated by and for its patrons and that school buildings and facilities play an important role within the community. Therefore, the district encourages the maximum use of school facilities by our school and community for a variety of purposes and for residents of all ages. It is the policy of the Forest Lake Area School District to permit the use of school facilities by residents of the school district. The policy also permits the use of school facilities by other individuals and organizations. However, the use of school facilities should not interfere with various school educational programs.

III. ADMINISTRATION OF POLICY AND POLICY REVIEW

- A. This policy will be administered by the Forest Lake Area Schools Community Education Department. As such, Forest Lake Area Schools will schedule all district facilities (buildings and grounds) after school, evenings, weekends and non-school days. The district will also approve user groups, communicate with buildings and grounds staff as well as the community, and also manage the revenue and expenses generated by facility use.
- B. The Forest Lake Area Schools Community Education Department, Buildings and Grounds Committee, and Policy Committee will review this policy, as needed. The Superintendent and Board of Education must approve all recommendations for changes associated with this policy.

IV. INDEMNIFICATION, LIABILITY, AND INSURANCE

- A. All commercial and nonprofit organizations that request the use of school district facilities must be organized in conformance with Minnesota Laws. Nonprofit status shall mean that the group holds established nonprofit status according to the U.S. Internal Revenue Code or nonprofit status as determined by the State of Minnesota.

- B. Non-district organizations and commercial user groups are required to furnish public liability insurance. School district activities (i.e. E-12, extracurricular, co-curricular groups, community education services, etc.) and school-parent support groups and organizations (i.e. PTAs, PTOs, site councils, booster clubs and organizations) do not need to provide separate liability coverage.
- C. Organizations that request the use of school district facilities agree to defend, hold harmless and indemnify the district, its officers and employees, for all liabilities, costs, expenses, claims and damages which arise in connection with the conduct of activity on the premises by the authorized organization. The public liability must be for the duration that may be deemed necessary and suitable in the circumstances. The insurer must agree to waive the defense of governmental immunity in the event a claim is made against the district.
- D. Organizations that request the use of school district facilities must annually furnish the school district with a certificate of insurance, naming Forest Lake Area Schools as the certificate holder, thus confirming that the organization has purchased liability insurance. The insurance must be in the amount not less than \$1,000,000 for each occurrence. Each insurance company and the company writing the certificate of insurance are subject to approval by the district. Exceptions may be granted, but must be approved by the Director of Community Education, Director of Business Services, Superintendent, and/or designee of the district.
- E. Organizations that request the use of school district facilities agree to waive any right of recovery against the district, its officers and employees from any loss arising from the organization's use of the premises in this agreement.
- F. Users shall assume full responsibility for damages to the property that occur during the use of district facilities by their group and participants as well as assume full liability of any kind.

V. PRIORITY SCHEDULING FOR USE OF FACILITIES

- A. Community use may be limited by the availability of authorized supervisory, custodial and technical personnel as well as equipment, maintenance, and other program schedules.

- D. Cancellations, additions, and/or changes to a permit shall be communicated (sent and received) to Community Education and be made not less than 48 hours (2 business days) in advance of the scheduled rental.
