T.E.A. January 2023- Update (Proposed)

As the TELPAS writing domain is being updated for 2023, the ELP component will be evaluated differently for 2023 accountability.

- For 2023 ONLY, TELPAS will be evaluated at the domain level in place of the composite rating.
- Student will be considered having made progress if the student advances or is scored as Advanced High or Basic Fluency in **2** of three domains from the prior year (2022) to the current year (2023).
- Evaluated domains will be listening, speaking, and reading.
- Only students evaluated in all three domains in both 2022 and 2023 will be evaluated.
- For 2024, the ELP methodology will return to use the TELPAS composite rating.

2023 Target Not Final

- Interim targets will increase by 2 percentage points at five year intervals.

Target during 2022 was at 36%. Possible new target 38%.
