**Re:** Chromebook purchase recommendation

I recommend that the Boyne City Public School District purchase 250 new Dell Chromebook 11 (8GB RAM, 64GB storage) for grades 5 and 9. This purchase will include the Chromebooks themselves and the Google licenses needed to manage them. The total cost of this purchase is \$67,715.00

These Chromebooks will be purchased through People Drive Technology as a part of REMC Save, which collectively bids for Michigan schools, guaranteeing the lowest available pricing. This purchase is part of BCPS's annual technology refresh plan, with funding from the Capital Improvement fund.
