

Board Report for Assistant Superintendent

June, 2025

Strategic Plan Focus Areas

Engagement

- Community Education and Recreation will be putting out a survey to access the community wants, needs, and feedback. With Sarah Bentley leading the charge, we are excited about offering new opportunities while improving elements within our current programming. The focus will be on communication and organization as we move into next year.

Portrait of a Graduate

- We are again in hiring season, if a normal one exists anymore, and we are in a great spot to hone the elements of successful employee. We continue to examine staff who are effective communicators, collaborators, creators, and critical thinkers. We strive to hire the best but also are focusing on supporting our team through growth and learning. We will continue to provide opportunities for the team of educators to grow in meaningful ways.

Health and Safety

- We have continued to work on the Emergency Operation plan under Doug Whitsel's guidance. The state has provided additional requirements so we are in the process of ensuring our plans are accurate and provide support appropriately within each department, building and the district.

As we move into the summer months, many of our staff have our busiest seasons. Most of our central office team will be resetting and preparing for the July 1 rollover while instructionally we are looking forward to August for many staff to return recharged and ready to go. It's a great time to be a BULLDOG!

Respectfully Submitted,
Marcus Kaemming
