Committee Working Map A: 2021

Previously: Test Map 8

MS Boundaries: Working Map A

This table shows the projected middle school population (6-8th grade) that would result from the proposed middle school boundaries shown on the map in a certain projection year. Students who will not attend their home school (Options or Program students) are estimated, and either removed from the count of middle school students (ACMA, ISB, BASE, Aloha-HUber Park) or are re-allocated to a middle school location (Rachel Carson to Five Oaks, and SUMMA program students).

The total attending population (resident students and program students) are totaled and compared with the available capacity at each middle school location.

Cedar Park 114 9-12th Graders in 2025 Move small portion Beaver Acres: (west of 170th) 31 K-5th graders in

2019: 9-12th Oak Hills in Westview
240 total, 20 attend Options, 5 attend other Comp HS - 215 total at WHS
~8% attend Options

2019: 9-12th Barnes in BHS
103 total, 17 attend Options, 16 attend other Comp HS - 70 total attend BHS
~17% attend Options

Beaver Acres enrollment 2019: 708; perm cap = 741, total cap. 893 Barnes enrollment 2019: 590; perm cap = 723, total cap. 799 This table shows the projected middle school population (6-8th grade) that would result from the proposed middle school boundaries shown on the map in a certain projection year. Students who will not attend their home school (Options or Program students) are estimated, and either removed from the count of middle school students (ACMA, ISB, BASE, Aloha-HUber Park) or are re-allocated to a middle school location (Rachel Carson to Five Oaks, and SUMMA program students).

The total attending population (resident students and program students) are totaled and compared with the available capacity at each middle school location.

All projected 6-8th graders by

All projected 6-8th graders by the proposed boundaries.

Derived from average Options attendance from elementary schools that make up the proposed MS boundaries. These students are expected to not attend their home MS.

Derived from average AHP and SUMMA program enrollment by elementary boundary. SUMMA students are re-distributed by SUMMA location below.

Estimated Attending Program Offsite

Projected students after Options, AHP and SUMMA are deducted this is the projected general education enrollment for each proposed MS boundary

Here students that are attending Rachel Carson or SUMMA programs are re-allocated to each middle school location, so they are counted in the total attending enrollment used to calculate utilization of capacity. For Proj. Yr 2025
