

Staff Development *

In order to strengthen and refine professional skills of district personnel, the superintendent or his/her designee will develop a staff development program for all employees.

Building leadership teams will be encouraged to participate in the development and implementation of the district's staff development program including provisions for the professional growth of staff.

Staff development programs, whether provided directly by the district or through district contracts with third parties, will provide appropriate, reasonable accommodations to ensure such programs are available to employees with disabilities.

Each individual licensed employee is solely responsible for ensuring accurate completion of the professional development required for licensure. Once a licensed employee completes licensure requirements, the employee must submit evidence to the employee's supervisor or professional development advisor who will verify that the licensed employee has successfully completed the professional development requirements to the superintendent or designee on the Teacher Standards and Practices Commission (TSPC) Professional Educational Experience Report (PEER) form.
