To Whom It May Concern:

It is with great pleasure I write this letter of support towards early graduation for Rebecca Connelly. She is a sophomore here at Browning High School. I have had the honor of being her school counselor throughout her time here. Rebecca has had many obstacles that presented themselves during her two years of high school so far, including remote learning during covid as she entered her freshman year, which was not an easy way to start high school and yet she excelled.

Since the beginning of freshman year, even while remote, Rebecca is one of the few sophomores that has continually checked in with me regarding what challenging courses BHS offers, when she can start taking those courses, how early graduation works, and many other conversations related to her goals and how to meet them. I am very impressed with the thought she puts into her choices and how she diligently works towards her goals.

Rebecca has many qualities that will take her far in life and help her be successful. Academically she works very hard to do well and sets high goals for herself. For example, she chose to switch into Honors English 2<sup>nd</sup> semester of this year as well as take a dual enrollment course through BCC, which she knew would be a challenging combination. She still chose that path and is doing well. She is in the top 15 of the sophomore class for her GPA. Her teachers have nothing but good things to say about her.

I fully support Rebecca graduating high school early. She works hard, is a great advocate for herself and makes it a point to look into all her options before she decides how to move forward. These characteristics of hers will help her accomplish what she needs to in life to reach her goals. I believe her goal of attending college to become a nurse is fully reachable and that with any obstacles she encounters she will find a way through and come out the other side stronger and more capable.

Please feel free to contact me should you require more information.

Respectfully,

Graduating early with the class of 2023 would be such an honor; it's been one of my biggest wishes to graduate with the proper grade level. I was held back at a very young age. Since then, I have always wanted to be in a suitable grade level. Graduating high school doesn't pertain to my only reason for wanting to graduate early. I have always wanted to go to nursing school. It has been the biggest motivation to go off to college and become a nurse in my high school career. I have always felt a big passion for nursing. If I had the opportunity to graduate early and get an early head start on my college journey, I would be a successful student and overachiever. I have always had this type of reputation that I have always been a good student, coming from a responsible family background, and acing my classes. Furthermore as well as asking teachers for clarification on how I can improve my grades and always be accountable for my academic studies. My career goal after high school is to go to SKC, and I would like to get my generals out of the way and then after that, I would like to work towards an associate's degree in nursing. After I get my associate's degree, I plan to go to a four-year university. I love UofM because they offer many students successful opportunities and excellent student support services. Another University I plan to attend is Arizona state university to continue pursuing my undergraduate studies as a nursing student. I genuinely believe that I can make this dream come true with my hard work, integrity, and consistency of being a determined, self-sufficient indigenous student.

Sincerely, Rebecca Connelly

I believe that my daughter Rebecca C. Conelly has so much potential and swiftly obtained her higher education. Allowing her to graduate early is a positive move that it must be made because her potential has no limitations. She has the highest intellectual integrity that I have witnessed in my life and as her father. I pridefully say that my daughter has no limitations to graduate, and she is so intelligent.

She can teach the world education-wise. Allowing her to graduate early will enable her to start college sooner, exceeding all expectations, so as a parent, I would like my daughter to graduate early.

Sincerely, Tennial & Joe Connelly

# Letter of Recommendation for Early Graduation

April 8, 2022

I am honored to write this letter of recommendation for early graduation for Rebecca Connelly. I know her on a professional and personal basis. Rebecca is a previous student in Earth Science 2020-2021 and Biology in 2021-22.

Rebecca has had great attendance in class, she cares about her assignments, scores and grades, always seeking to improve. She has had nothing but excellent conduct in class and paid attention to directions. If anything is unclear to Rebecca, she will communicate to me immediately for clarification.

Rebecca is ambitious and positive, willing to challenge herself on anything set before her. As with all my students involved in Science, I have encouraged them to seek a career in STEM. I have been encouraging Rebecca to take college courses in Science.

I am a friend of her family, seeing them out and about in the community, whether it be school functions or celebrations, I am always greeted by Rebecca and her family. I know that she comes from a healthy and stable background.

It is with my recommendation that Rebecca Connelly is considered for early graduation with her maturity and awesome academic progress. If she were allowed to graduate earlier, she is thinking about immediately attending a college thereafter. Rebecca is a quick learner and is very friendly and approachable. Any questions, please give me a call.

May 16, 2022

To whom it may concern,

I am writing in reference to Rebecca Connelly in her early graduation endeavors. I have known Rebecca as her geometry teacher for this school year. She has an excellent work ethic and perseverance. She is a hard-working student in my math class, where she routinely give her best effort and doesn't back down from the challenge. I was especially impressed with her resolve as she has been a partially remote learner for a portion of this school year; she knew what she had to do and what needed to be done. Whether it was emailing to ask for help, accessing notes and other supporting materials, she always found a way to get what she needed. I know she will be a hard worker and give it her all for her endeavors.

I would recommend Rebecca for early graduation because I know that once she has puts her mind to it, she will do what she needs to to get it done.

If you would any additional information please feel free to email [randallr@bps.k12.mt.us](mailto:randallr@bps.k12.mt.us)

Sincerely,
