Re: Responsible Use Policy

The Coppell ISD students and staff follow Acceptable Use Policy (CQ-LOCAL) governed by the school board to access a variety of technology resources. These resources provide access and opportunity to enhance teaching and learning within the bounds of safe, and legal responsible use.

To help set a proactive learning environment, the district would like to recommend to modify the policy from "Acceptable Use" to "Responsible Use" policy. The Regulations document designed within the CQ-LOCAL policy framework is designed to clarify the Responsible Use intent and will be reviewed and modified annually as district needs and technology use change.
