"One District. One Mission. Every Student. Every Day."

Report to the Board

Jake Massey, Asst. Superintendent

December 17th, 2025

Follow Up Items:

- [Supplemental Materials Committee Sign Up](#)- This form has been simplified and changed from an "application" to "sign up". It is available to the community on the district website under School Board > Supplemental Materials Committee.

Curriculum & Instruction:

- [K-3 Correct Words per Minute](#): This assessment data was not available for the report in November. Please note, there is an additional "Amira" column for 2nd & 3rd grade so we can compare the text fluency rates as they are measured by the new state assessment to the in-house measures we have used for years.
- Preparation for the ISAT Test: We have teachers using engaging teaching strategies and creative lesson design to incorporate sample ISAT questions into students' daily learning. It's a goal of ours to increase student achievement on the ISATs, and we're committed to doing that through great teaching, not just through practice with the test. We are excited to see how this impacts our students' learning!

Safety & Security:

- The SRO & ADSS team continues to meet on a monthly basis to evaluate and improve the state of our Safety & Security protocols.
