Introduction

In accordance with state law the Board of Trustees receives a quarterly report on district investments. In addition to the quarterly report, the Board of Trustees of Italy Independent School District (IISD) requires that a comprehensive report on the investment program and investment activity be presented annually. The annual report shall include a review of the activities and total yield for the preceding 12 months, suggest policies, strategies, and improvements that might enhance the investment program, and propose an investment plan for the 2024-2025 year.

This report has been prepared in compliance with the IISD annual reporting requirements for investments. The report is also designed to provide an overview of the deliberative process regarding investments by the designated district investment officers; the Superintendent and Business Manager.

Legal Requirements for Investments

State and federal laws establish rules within which all school districts are expected to operate when investing public funds. The Public Funds Investment Act (PFIA), found in Chapter 2256 of the Texas Government Code, provides investment guidelines for the majority of political subdivisions in the state, including school districts. The PFIA was first passed in 1987. It was significantly rewritten in 1995 in response to the Texas State Auditor reports on investment losses at Texas institutions and in review of investment problems in Texas counties and elsewhere. In 1997 amendments further clarified the intent of the 1995 requirements. Additional amendments have since been passed by the Texas Legislature, primarily clarifying and improving public funds investment options.

The PFIA is merely part of the whole, not inclusive of all investment requirements. Public funds investors must understand and comply with all applicable investment requirements, such as for bond proceeds in compliance with Chapter 45 of the Texas Education Code, collateral for public funds as stipulated in Chapter 2257 of the Texas Government Code, and the Governmental Standards Board (GASB). There may also be additional requirements for investments in local policies and procedures outlined in Board Policy CDA (Local), which district investment officers must incorporate into their overall investment program and strategies.

Later in this document you will find the full text of Chapter 2256 of the Texas Government Code (commonly referred to as the Public Funds Investment Act), Board Policy CDA (Legal) and Board Policy CDA (Local). Local policies are superseded by state and federal laws, but local policies may be more restrictive.

Required Annual Action by the Board of Trustees

Chapter 2256 of the Texas Government Code requires the Board of Trustees take action on three investment related issues annually. Those are:

- 1) In accordance with Section 2256.005(e) the Board of Trustees shall review the district's investment policy and investment strategies not less than annually. Following the annual review the Board must adopt a *written resolution* stating the investment policy and strategies have been reviewed, and that the adopted resolution records any changes made to either the investment policy or strategies.
- 2) In accordance with Section 2256.008(a) the Board of Trustees must approve of an independent source, or sources, for *investment training* required to be provided to the district's designated investment officers. And,
- 3) In accordance with Section 2256.025 the Board of Trustees shall annually review, revise and adopt a *list of qualified brokers* authorized to engage in investment transactions with the district's designated investment officers.

This document contains the resolutions and recommendations the Board of Trustees must take action on annually. The first is titled *Resolution Stating Review of Investment Policies and Strategies and Designation of Investment Officers for the Italy Independent School District for 2024-2025*, the next is titled *Resolution Approving Investment Training Providers: 2024-2025*, and the final action item is to approve the *Recommended Broker/Dealers List for 2024-2025*. Each requires board action to be recorded in the minutes of the Board meeting.

Standards of Care & Investment Strategies

Section 2256.006 of the Texas Government Code and Board Policy state, "Investments shall be made with judgment and care, under prevailing circumstances, that a person of prudence, discretion, and intelligence would exercise in the management of the person's own affairs, not for speculation, but for investment, considering the probable safety of capital and the probable income to be derived. Investment of funds shall be governed by the following investment objectives, in order of priority:

- 1) preservation and safety of principle;
- 2) liquidity, and
- 3) yield."

Board Policy CDA (Local) further states, "The main goal of the investment program is to ensure its safety and maximize financial returns within current market conditions ... Investments shall be made in a manner that ensures the preservation of capital ... No individual transaction shall be undertaken that jeopardizes the total capital position of the overall portfolio."

Authorized Investments

Chapter 2256 of the Texas Government Code specifically sets guidelines for the types of investments authorized for purchase by governmental entities in the state. Board Policy CDA (Legal) follows these guidelines for authorized investments for school districts. Board Policy CDA (Legal) is included in this document and lists eleven types of investments that are acceptable for school districts. For further information on the state authorized investments for school districts refer to this policy.

Board Policy CDA (Local) sets policy for IISD that places further limits on investments for the district. The Board of Trustees of Italy ISD limits investments to:

- 1) Obligations of, or guaranteed by, governmental entities as permitted by Government Code 2256.009.
- 2) Certificates of deposit and share certificates as permitted by Gov. Code 2256.010.
- 3) Fully collateralized repurchase agreements as permitted by Gov. Code 2256.011.
- 4) A securities lending program as permitted by Gov. Code 2256.0115.
- 5) Banker acceptances as permitted by Gov. Code 2256.012.
- 6) Commercial paper as permitted by Gov. Code 2256.013.
- 7) No-load money market mutual funds and no-load mutual funds as permitted by Gov. Code 2256.014.
- 8) A guaranteed investment contract as an investment vehicle for bond proceeds, provided it meets the criteria and eligibility requirements of Gov. Code 2256.015.
- 9) Public funds investment pools as permitted by Government Code 2256.016.

Types of Investment Risks

All investments involve risks. There is a risk of losing money, but there is also a risk of not earning all that could be earned. A balance must be established between the high rate of return with riskier investments and the risk of earning less than possible. This balance is basically seeking to achieve a *market rate of return*, a general term referring to the approximate interest rate that could be earned in a specific maturity range at any given point in time. Districts should work to achieve a targeted market rate of return, and if a higher return than the targeted rate is pursued, then make certain everyone understands the risks involved. The primary investment risks for public entities are:

Credit Risk: The risk that the issuer of a security will not be able to pay interest or principal on a timely basis. Texas Government Code Chapter 2256, CDA(Legal) and CDA(Local) have minimized credit risk with the list of authorized investment types.

Liquidity Risk: The risk that the investment cannot be sold, and that cash cannot be obtained when needed.

Collateral Risk: The risk there will be insufficient collateral to fully compensate the district if the institution fails and cannot convert the investment to cash as agreed.

Market Risk: The risk that the price of the security could change and create an unrealized or realized loss.

Volatility Risk: The risk that a security will rise or fall sharply in price within a short-term time period.

Opportunity Cost Risk: Opportunity cost is the difference between a current investment return and an alternative investment offering a higher return.

Diversification Risk: The risk that the types of investments do not spread the maturity, liquidity, credit and market risks sufficiently enough to minimize fluctuations in the overall portfolio value and income. There are three major categories of diversification risks: diversification by maturity, diversification by issuer, and diversification by type.

The designated investment officers for IISD should thoroughly understand the risks associated with the different types of authorized investments. Different investment instruments have differing inherent risks in reaction to changing market conditions. Each investment should be carefully considered based on the risk tolerance of the District and the prevailing market conditions. All risk factors must be considered by investment officers each time an investment is made.

Review of Investment Policies and Strategies for 2023-2024

Italy ISD investments during 2023-2024 were spread among the bank, LOGIC, and TexPool Investment Pools. Interest rates are on the climb, so the investment pools proved to be the best investments with LOGIC rates averaging higher than the other pools.

IISD had realized interest income in all funds totaling \$215,270.73 from September 1, 2023 through August 31, 2024. Interest income earned by fund was as follow:

General Fund	\$ 173,882.87
Debt Service Fund	\$ 41,147.41
Capital Projects Fund	\$ 240.45

Investment Strategies for 2024-2025

The District's primary investment strategy for 2023-2024 was to invest in the investment pools.

The best strategy for 2024-2025 is for IISD to maintain a liquidity position in pool accounts and invest more into the LOGIC pool which has consistently had high yields than the other accounts, and potentially taking advantage of Certificates of Deposit investments within the pools.

IISD's overriding focus and concern will be safety of principal and meeting cash liquidity needs. The targeted benchmark for the year will continue to be to meet or exceed the Fed Funds Effective Rate. With the likelihood of most funds being invested in LOGIC, it is probable the District will meet this benchmark rate.

Recommended Broker/Dealers List for 2024-2025

A broker is an individual, investment bank, investment firm, or commercial bank that finds a willing buyer and a willing seller and then executes transactions with each. A dealer is an individual, investment bank, investment firm, or commercial bank that purchases or sells securities for purchase or sale to other investors. All broker/dealer firms are required to register with the Securities and Exchange Commission (SEC) and join a self-regulatory organization such as the National Association of Securities Dealers (NASD) or the New York Stock Exchange (NYSE).

Primary brokerage firms are banks and securities investment firms that are pre-approved to trade in U.S. Government securities with the Federal Reserve System. In order to trade with the Federal Reserve these firms are monitored by the Federal Reserve and must meet the highest capital standards. All government securities are initially sold exclusively to these firms, who in turn resale to other investment firms or individual investors.

There is a second tier of brokerage firms. These firms are not monitored by the Federal Reserve and are typically called *national* or *regional* brokerage firms. These firms must be registered with the Securities and Exchange Commission. Many do business worldwide, but primarily nationally by regions within the United States.

The last broker/dealer firm is the independent. An independent is usually acting only as a broker mediating transaction between the primary and regional firms and willing buyers. Independent brokers in Texas must be registered with the Texas State Securities Board.

In compliance with Texas *Government Code 2256.025*, Board Policy CDA (Legal) states, "The Board or a designated investment committee, shall, at least annually, review, revise, and adopt a list of qualified brokers that are authorized to engage in investment transactions with the District." It is recommended the following investment broker/dealer firms be adopted as the approved list for the district:

Sec. 2256.005. INVESTMENT POLICIES; INVESTMENT STRATEGIES; INVESTMENT OFFICER. (a) The governing body of an investing entity shall adopt by rule, order, ordinance, or resolution, as appropriate, a written investment policy regarding the investment of its funds and funds under its control.

(b) The investment policies must:

- (1) be written;
- (2) primarily emphasize safety of principal and liquidity;
- (3) address investment diversification, yield, and maturity and the quality and capability of investment management; and
- (4) include:
 - (A) a list of the types of authorized investments in which the investing entity's funds may be invested;

 - (D) methods to monitor the market price of investments acquired with public funds;
 - (E) a requirement for settlement of all transactions, except investment pool funds and mutual funds, on a delivery versus payment basis; and
 - (F) procedures to monitor rating changes in investments acquired with public funds and the liquidation of such investments consistent with the provisions of Section 2256.021.

(c) The investment policies may provide that bids for certificates of deposit be solicited:

- (1) orally;
- (2) in writing;
- (3) electronically; or
- (4) in any combination of those methods.

(d) As an integral part of an investment policy, the governing body shall adopt a separate written investment strategy for each of the funds or group of funds under its control. Each investment strategy must describe the investment objectives for the particular fund using the following priorities in order of importance:

- (1) understanding of the suitability of the investment to the financial requirements of the entity;
- (2) preservation and safety of principal;
- (3) liquidity;
- (4) marketability of the investment if the need arises to liquidate the investment before maturity;
- (5) diversification of the investment portfolio; and
- (6) yield.

(e) The governing body of an investing entity shall review its investment policy and investment strategies not less than annually. The governing body shall adopt a written instrument by rule, order, ordinance, or resolution stating that it has reviewed the investment policy and investment strategies and that the written instrument so adopted shall record any changes made to either the investment policy or investment strategies.

(f) Each investing entity shall designate, by rule, order, ordinance, or resolution, as appropriate, one or more officers or employees of the state agency, local government, or investment pool as investment officer to be responsible for the investment of its funds consistent with the investment policy adopted by the entity. If the governing body of an investing entity has contracted with another investing entity to invest its funds, the investment officer of the other investing entity is considered to be the investment officer of the first investing entity for purposes of this chapter. Authority granted to a person to invest an entity's funds is effective until rescinded by the investing entity, until the expiration of the officer's term or the termination of the person's employment by the investing entity, or if an investment management firm, until the expiration of the contract with the investing entity. In the administration of the duties of an investment officer, the person designated as investment

officer shall exercise the judgment and care, under prevailing circumstances, that a prudent person would exercise in the management of the person's own affairs, but the governing body of the investing entity retains ultimate responsibility as fiduciaries of the assets of the entity. Unless authorized by law, a person may not deposit, withdraw, transfer, or manage in any other manner the funds of the investing entity.

(g) Subsection (f) does not apply to a state agency, local government, or investment pool for which an officer of the entity is assigned by law the function of investing its funds.

Text of subsec. (h) as amended by Acts 1997, 75th Leg., ch. 685, Sec. 1

(h) An officer or employee of a commission created under Chapter 391, Local Government Code, is ineligible to be an investment officer for the commission under Subsection (f) if the officer or employee is an investment officer designated under Subsection (f) for another local government.

Text of subsec. (h) as amended by Acts 1997, 75th Leg., ch. 1421, Sec. 3

(h) An officer or employee of a commission created under Chapter 391, Local Government Code, is ineligible to be designated as an investment officer under Subsection (f) for any investing entity other than for that commission.

(i) An investment officer of an entity who has a personal business relationship with a business organization offering to engage in an investment transaction with the entity shall file a statement disclosing that personal business interest. An investment officer who is related within the second degree by affinity or consanguinity, as determined under Chapter 573, to an individual seeking to sell an investment to the investment officer's entity shall file a statement disclosing that relationship. A statement required under this subsection must be filed with the Texas Ethics Commission and the governing body of the entity. For purposes of this subsection, an investment officer has a personal business relationship with a business organization if:

(1) the investment officer owns 10 percent or more of the voting stock or shares of the business organization or owns \$5,000 or more of the fair market value of the business organization;

(2) funds received by the investment officer from the business organization exceed 10 percent of the investment officer's gross income for

the previous year; or

(3) the investment officer has acquired from the business organization during the previous year investments with a book value of \$2,500 or more for the personal account of the investment officer.

(j) The governing body of an investing entity may specify in its investment policy that any investment authorized by this chapter is not suitable.

(k) A written copy of the investment policy shall be presented to any business organization offering to engage in an investment transaction with an investing entity. For purposes of this subsection and Subsection (1), "business organization" means an investment pool or investment management firm under contract with an investing entity to invest or manage the entity's investment portfolio that has accepted authority granted by the entity under the contract to exercise investment discretion in regard to the investing entity's funds. Nothing in this subsection relieves the investing entity of the responsibility for monitoring the investments made by the investing entity to determine that they are in compliance with the investment policy. The qualified representative of the business organization offering to engage in an investment transaction with an investing entity shall execute a written instrument in a form acceptable to the investing entity and the business organization substantially to the effect that the business organization has:

(1) received and reviewed the investment policy of the entity;

and

(2) acknowledged that the business organization has implemented reasonable procedures and controls in an effort to preclude investment transactions conducted between the entity and the organization that are not authorized by the entity's investment policy, except to the extent that this authorization:

(A) is dependent on an analysis of the makeup of the entity's entire portfolio;

(B) requires an interpretation of subjective investment standards; or

(C) relates to investment transactions of the entity that are not made through accounts or other contractual arrangements over which the business organization has accepted discretionary investment authority.

(1) The investment officer of an entity may not acquire or otherwise obtain any authorized investment described in the investment policy of the investing entity from a business organization that has not delivered to the entity the instrument required by Subsection (k).

(m) An investing entity other than a state agency, in conjunction with its annual financial audit, shall perform a compliance audit of management controls on investments and adherence to the entity's established investment policies.

(n) Except as provided by Subsection (o), at least once every two years a state agency shall arrange for a compliance audit of management controls on investments and adherence to the agency's established investment policies. The compliance audit shall be performed by the agency's internal auditor or by a private auditor employed in the manner provided by Section 321.020. Not later than January 1 of each even-numbered year a state agency shall report the results of the most recent audit performed under this subsection to the state auditor. Subject to a risk assessment and to the legislative audit committee's approval of including a review by the state auditor in the audit plan under Section 321.013, the state auditor may review information provided under this section. If review by the state auditor is approved by the legislative audit committee, the state auditor may, based on its review, require a state agency to also report to the state auditor other information the state auditor determines necessary to assess compliance with laws and policies applicable to state agency investments. A report under this subsection shall be prepared in a manner the state auditor prescribes.
