Elizabeth Janowiak
Director of Technology
Geneva School District

To: Donna Oberg
From: Elizabeth Janowiak
Date: March 6, 2013

Please submit this purchase information to the BOE for the March 11th meeting.

A component of the second phase of the Technology Capital Outlay Plan targets replacing antiquated desktop computers in various locations throughout the district. Inventory records, including computer age, warranty, and hardware specifications, as well as the expected use of the computers systems by staff and students, have been evaluated in determining which systems present a need for replacement. This particular purchase will provide new computers to be installed in the computer lab at Heartland Elementary School, the second multi-purpose lab at each of our middle schools, as well as update computers in some of the offices throughout the district.

Depending on the hardware capabilities of the system being replaced, these older computers (age range from 2000-2006) that are being replaced will either be redistributed to areas of the district that require less system functionality, will be broken down and used for spare parts, or will be recycled in accordance with electronics recycling mandates.

As we continue to implement the second phase of our technology capital improvements the following computer purchase is submitted for your information.

Equipment	Qty	Total Amount
HP Compaq Pro 6300 Desktop PC	120	\$69,840.00
Total		\$69,840.00
IL State Contract Pricing provided thru Heartland Business Systems		

Please let me know if additional information is needed.
