

Menstrual Supplies Follow-Up

Below are the current installations for the menstrual dispensers (13):

- High School: girl's locker room & B region girl's restroom (qty 2)
- Middle School: girl's hall restrooms in A & B wings (both down and upstairs) (qty 4)
- Prescott: girl's annex restroom and both main building hall girls' restrooms (qty 3)
- Sacramento:
- Russell: girl's MPR restroom & girl's main hall restroom (qty 2)
- Shaver: girl's MPR restroom & girl's main hall restroom (qty 2)

We will be working on installing (and ordering) the remaining ones, as well as a smaller & simpler option for in-class restrooms, between now and early June with the high school and middle school. The install progression plan is:

1. any gender neutral restrooms
2. girls' locker rooms
3. girls' hallway restrooms
4. remaining restrooms
