A benchmark score is the minimum score needed on an ACT subject-area test to indicate a $50 \%$ chance of obtaining a B or higher or about a $75 \%$ chance of obtaining a C or higher in the corresponding creditbearing college courses.

- English Composition: 18 on ACT EnglishTest
- College Algebra: 22 on ACT Mathematics Test
- Social Science: 22 on ACT Reading Test
- Biology: 23 on ACT Science Test

NOTE: Not all students who take the ACT enroll in college.

## Continuous Growth and Improvement: Specific 2022-23 Action Steps

1. Standards Based Learning/Curriculum Review process (all grade levels, all curricular areas) - working towards consistent alignment with MN Standards for assessments/grading, curriculum and instruction. This is being facilitated by administration and a part-time Curriculum Coordinator as focus of PLCs and Staff Development. The school calendar was modified for this year to eliminate the late starts and instead have 5 full additional days for teachers and administration to focus on this work. Teachers are also offered the option of working on this for pay over the summer.
2. Continue options for credit recovery for high school students to recover credits during the summer and after school.
3. New science curriculum for grades K-6, purchased - $1^{\text {st }}$ year of implementation with alignment with MN Science Standards.
4. Alternative data is being identified and gathered through a "Redefining Ready" project with area school districts. Data points of specific activities and experiences have been identified as research supported to correlate to success in a career and/or college after high school graduation. These data points include attendance, extra/co-curricular participation, GPA, enrollment in career training classes, Algebra II grade and more. Our plan is to begin sharing this data for individual students as well as potentially looking at our districtwide scores for monitoring our programming and to help inform planning decisions.
5. Teachers encouraged to visit peer or neighboring district's classrooms for observation and reflection on other teachers' instruction and curriculum implementation strategies.
6. Expand advertising and recruitment efforts to attract racially diverse teacher and staff candidates.
7. Expansion of Spanish interpretation and support for English Learning students and parents.
