

Minidoka County School District

## **Transportation's Report**

**March 31, 2017**

March came in like a lion and is also going out like one too. Love Mother Nature.

With all of the flooding that was going on March was a little hairy, but thanks to all of the amazing parents and County Highway Department, Jess Miller, and his crew we made it through. The parents were very supportive of our alternate bus routes and most of the students made it to school.

Our drivers were amazing with the drastic changes to the routes but after a couple of days it was running super smooth. Very few complaints and the kiddos loved getting home earlier than normal.

Jess Miller and the County Highway crew have been amazing with getting the craters fixed and the roads graded so that we are able to return to normal. They still have a few roads that are not passable, but we are down to only one bus that has not been able to go back to normal. So out of 40 routes 39 are back to normal. Yahoooo!!!!

I would like to thank all the drivers, aides, mechanics, and my secretary for an amazing job well done. I have the best crew in the world working for Transportation.

Last month we had seven bus citations. They ranged from being disrespectful and rude to using foul language, not staying in seats. We did have a situation that required the Heyburn administrators to assist one of my buses in, and we would like to thank them for their help.

We do have two people working on getting their CDL's but the process is slow. We hope to have them up and running by May.

Alicia Bywater  
Transportation Supervisor
