

## **Curriculum Resource Adoption for CTE, LOTE and ESL-2017-2018**

**Rationale:** The instructional materials adoption is an important process for all educators and school districts in Texas because it only happens once every eight years for most subject areas. Career & Technology Education (CTE) resources, Languages Other Than English (LOTE) resources, and English as a Second Language (ESL) resources are up for adoption this year. Teachers from each of these subject areas, along with administrators, have evaluated the resources from several different publishers. The attached list of resources and publishers are the ones selected to best meet the needs of our students.

**Recommendation:** Approve the adoption of CTE, LOTE and ESL resources/materials.
