**GENERAL PROVISIONS/ TEMPLE COLLEGE- TEXAS BIOSCIENCE INSTITUTE
 DUAL CREDIT PROGRAM
 DEFINITIONS**

Reference: Texas Administrative Code; Title 19; Part 1; Chapter 4; Subchapter D; Rule 4.83. **19 Tex. Admin. Code § 9.1**

- Dual Credit – A process by which a high school student enrolls in a college course and receives simultaneous academic credit for the course from both the college and the high school. While dual credit courses are often taught on the secondary school campus to high school students only, § 4.84 of this title (relating to Institutional Agreements) and § 4.85 of this title (relating to Dual Credit Requirements) also apply when a high school student takes a course on the college campus and receives both high school and college credit. Dual credit is also referred to as concurrent course credit; the terms are equivalent. However, dual (or concurrent) enrollment refers to a circumstance in which a student is enrolled in more than one educational institution (including a high school and a college). This differs from how the term “concurrent enrollment” is used (see below).
- Dual Enrollment – (previously referred to as dual or concurrent enrollment) -- Refers to a system under which a student is enrolled in more than one educational institution (including a high school and a public institution of higher education). When a student in a dual-enrollment system enrolls in courses, the student earns appropriate course credit

from each distinct educational institution that offered the course. Dual enrollment is not equivalent to dual credit.

- Articulated College Credit – Credit earned through a high school-level course that fulfills specific requirements of an identified college-level course and provides a pathway for high school students to earn credit toward a technical certificate or technical degree at a partnering institution of higher education. A course that is part of an Articulation Agreement between an ISD and TC. Credit is awarded after high school graduation, provided the student enrolls at TC and completes six (6) hours of college credit, meeting all the requirements of the Articulation Agreement.
- International Baccalaureate Diploma Program – The curriculum and examinations leading to an International Baccalaureate diploma awarded by the International Baccalaureate Organization.
- College Board Advanced Placement--College-Level courses and exams available to secondary students under the auspices of an approved College Board program.
- Early College Education Program – A program as defined in TEC 29.908.
- Early College Program--A program developed via an institutional agreement in partnership between a public institution of higher education and high schools or school districts in which a student enrolls in courses that are part of a defined sequence of courses leading to a Board-approved certificate, AA, AS, or AAS degree program as defined in *Title 19, Part 1, Chapter 9, Rule 9.1 - Definitions of Texas Administrative Code.*

STATEWIDE DUAL CREDIT GOALS

Reference: Texas Education Code; Section 28.009; (b-1) and (b-2)

As required by HB 1638 (85th Legislature, Regular Session) and codified in the Texas Education Code, Sec. 28.009, the Texas Higher Education Coordinating Board (THECB) and the Texas Education Agency (TEA) collaboratively developed statewide goals for dual credit programs, including early college high school programs, career and technical education dual credit programs and join high school and college credit programs provided under Section 130.008, to provide uniform standards for evaluating those programs. The goals must address, at a minimum:

- (1) A dual credit program's achievement of enrollment in and acceleration through postsecondary education
- (2) Performance in college-level coursework; and
- (3) the development of an effective bridge between secondary and postsecondary education in the state.

(b-2) as amended by Acts 2019, 86th Leg., Ch. 264 (S.B. 1276), § 1>

(b-2) Any agreement, including a memorandum of understanding or articulation agreement, between a school district and public institution of higher education to provide a dual credit program described by Subsection (b-1) must:

(1) include specific program goals aligned with the statewide goals developed under Subsection (b-1);

(2) establish common advising strategies and terminology related to dual credit and college readiness;

- (3) provide for the alignment of endorsements described by Section 28.025(c-1) offered by the district, and dual credit courses offered under the agreement that apply towards those endorsements, with postsecondary pathways and credentials at the institution and industry certifications;
- (4) identify tools, including tools developed by the agency, the Texas Higher Education Coordinating Board, or the Texas Workforce Commission, to assist school counselors, students, and families in selecting endorsements offered by the district and dual credit courses offered under the agreement;
- (5) establish, or provide a procedure for establishing, the course credits that may be earned under the agreement, including by developing a course equivalency crosswalk or other method for equating high school courses with college courses and identifying the number of credits that may be earned for each course completed through the program;
- (6) describe the academic supports and, if applicable, guidance that will be provided to students participating in the program;
- (7) establish the district's and the institution's respective roles and responsibilities in providing the program and ensuring the quality and instructional rigor of the program;
- (8) state the sources of funding for courses offered under the program, including, at a minimum, the sources of funding for tuition, transportation, and any required fees or textbooks for students participating in the program; and
- (9) be posted each year on the district's and the institution's respective Internet websites.

These goals guide institutions of higher education (IHEs) and independent school districts (ISDs) on components that must be in place to ensure that quality dual credit programs are provided to Texas high school students.

Goal 1: Independent school districts and institutions of higher education will implement purposeful, collaborative outreach to inform all students and parents about the benefits and costs of dual credit, including enrollment and fee policies.

TC and ISD alignment:

- TC will provide annual Dual Credit Information Sessions at the high school or college location for parents and students. Information Sessions will cover the benefits and costs of dual credit and local enrollment, as well as fee policies.
- ISD will advertise the event to parents and students interested in dual credit and provide a location for the event if it is to be held on the high school campus.
- TC and ISD will provide dual credit webpages that reflect the most current dual credit program information, including enrollment and fee policies.
- TC will hold an annual counselor's meeting that will provide the latest information regarding dual credit best practices, upcoming deadlines, legislative requirements, and TC policies affecting dual credit learners.
- TC and ISD will hold PAC meetings (alternating locations) that allow IHE and ISD staff to address any ongoing dual credit issues collaboratively and to align marketing campaigns and dual credit goals further.

Goal 2: Dual credit programs will assist high school students in the successful transition to and acceleration through postsecondary education.

TC and ISD alignment:

- TC will provide annual Dual Credit Orientation Sessions at the high school or college location for parents and students. Orientation Sessions will include information on TC student policies, best practices for successful adaptation to the college curriculum, and e-learning orientation to help students access online portals and student support.
- ISD will advertise the event to parents and students interested in dual credit and provide a location for the event if it is to be held on the high school campus.

Goal 3: All dual credit students will receive academic and college-readiness advising and access to student support services to complete college courses successfully.

TC and ISD alignment:

- TC will provide an online service for student advising access and support called CRM Advise.
- TC will provide (1) Dual Credit Pathways guides that align high school pathways (endorsements), including dual credit courses, with Temple College academic or career and technology certificates and degree programs, (2) program maps showing a clear pathway to completion, further education, and employment in fields of importance to the region, and (3) transfer pathways aligned to pathway courses and expected learning outcomes with transfer institutions, which optimize the applicability of community college credits to university majors.
- TC will provide advising services at all center locations on a walk-in basis.

Goal 4: The quality and rigor of dual credit courses will be sufficient to ensure student success in subsequent courses.

TC and ISD alignment:

- TC endeavors to ensure the quality and rigor of all college credit courses by upholding SACSCOC accreditation standards in the hiring of faculty.
- All college faculty are evaluated annually by the relevant department chair per the college's Annual Evaluation policy, located in Temple College's Administrative Regulations.
- All college courses are issued student evaluations for learner feedback.

For Fall 2026, tuition is set in accordance with the applicable THECB-approved FAST rate in effect at the time of instruction. Tuition rates are subject to annual adjustment based on THECB guidance and published FAST limits.

Temple College reserves the right to update dual credit tuition rates as required to remain compliant with state law and THECB rules. Any changes to tuition rates will be communicated to participating Independent School Districts before implementation.

Eligible FAST students shall receive tuition in accordance with state FAST requirements.

Students living outside a Temple College taxing district will be charged a \$10-per-hour out-of-district fee. If applicable, additional course fees, such as health science, laboratory, certification exam, or insurance fees, will be billed in accordance with the College's fee schedule.

The College shall invoice tuition and fee charges after the last census date of the semester, and the ISD shall pay these charges within 30 days of receiving the invoice. See "Funding Sources" for additional details.

The Dual Credit program tuition discount and or waiving of any related fees are subject to change by the TC Board of Trustees. All tuition, charges, and fees are subject to change by action of the Board of Trustees as deemed advisable.

TBI CONSORTIUM FEE

The Consortium Fee is \$150 per junior for all affiliated Independent School Districts (ISDs) and home-schooled students participating in the TBI Middle College Program.

- For ISDs with one high school, the fee is capped at \$3,000, covering up to 20 juniors.
- For ISDs with multiple high schools, the number of juniors is counted across all campuses, and the cap is adjusted as follows:
 - Two high schools: up to 30 juniors, capped at \$3,500
 - Three high schools: up to 40 juniors, capped at \$4,000

These adjusted caps apply only if the district with multiple high schools has more than 20 juniors in total. If the number of juniors is 20 or fewer, the standard rate of \$150 per student or a \$3,000 cap applies.

These caps are designed to support broader participation while maintaining consistent and equitable costs across all partner districts.

Please note that the current TBI Consortium Fee will be evaluated annually to assess its effectiveness and feasibility for continuation at the current rate.

Temple College will invoice the Independent School District the appropriate Consortium Fee for participation in the Texas Bioscience Institute during the fall semester.

Note: The Consortium Fee applies only to **junior-year students**.

4. All public colleges, universities, and health-related institutions may waive all or part of tuition and fees for a Texas high school student enrolled in a course for which the student may receive dual course credit.

Funding Sources

Tuition: Tuition and fees, less funds received from the State for FAST-eligible students, shall be the responsibility of the ISD.

Required Textbooks and Course Materials: Textbooks and any required course materials are the ISD's responsibility. Temple College will provide textbook information through the Temple College Bookstore and course syllabi every semester. Digital textbooks and access codes that are billed as a course section fee at the time of registration will be billed to the ISD by the College. The ISDs may purchase other textbooks and course materials from their preferred vendor.

Billing Procedures: The College will bill the ISD for tuition, fees, and digital textbooks and access codes, less any amount received from the State for FAST-eligible students. An invoice detailing those charges, along with any amounts received by the State for FAST-eligible students, will be sent after the course census date(s). Payment shall be remitted by the ISD via check, ACH, or wire, in accordance with the terms outlined in Texas Government Code Chapter 2251.

Student Reimbursement: The ISD, at its sole discretion, may require reimbursement from any student who is not FAST-eligible for tuition, fees, books, or other course materials paid by the ISD. Student reimbursement shall not be a condition of the ISD's payment for the amounts billed by the College to the ISD. The ISD may not require reimbursement for any costs from students who are FAST-eligible. **This section does not apply to students enrolled in a dual-credit program within an early-college high school model.**

(Optional) Special Billing Provisions Related to Courses Taught by Embedded Instructors: Embedded Instructors are ISD teachers, credentialed by Temple College through SACSCOC, our accrediting body, and compensated by their ISD. Temple College encourages the ISD to offer stipends or other incentives to Embedded Instructors for the teaching of dual credit that are equivalent to those provided by the ISD to teachers teaching Advanced Placement (AP) or International Baccalaureate (IB) courses. The College agrees to waive the balance of tuition, out-of-district fees, and course fees (other than books, digital textbooks and access codes) related to courses taught by an Embedded Instructor. This waiver includes the full amount of tuition, out-of-district fees, and course fees for students who are not FAST-eligible, and the balance after State payment for any student who is FAST-eligible. For courses taught by Embedded Instructors, the College will bill the ISD only for direct costs incurred by the College on the ISD's behalf, such as digital textbooks and access codes procured through the College, or course materials purchased by the College on the ISD's behalf.
