Please see attached updated plans for the Monaco Learning Garden. We have revamped the plans and moved the garden behind the building between the green and yellow wings. (South East corner of building.)

It seems to be the ideal location for the garden so we can incorporate everything in one area. Jason Massingale from Maintenance spent a deal of time looking at the plans with us and reviewing the sprinkler system in that area.

The garden will still go in in-stages as funding is available but we have a Ground Breaking set for Sept. 24th with Board Approval.

Please let me know if you need further information for the board.

Thank you, Jana Lowman

These are three plans for the garden:

1. Just the paths
2. What we will commit to doing
3. The ultimate goal (includes checker board)
