| Jan. 19 - Holiday | |

Principal's General Narrative:

We are coming to the end of the first semester. Again, our students have done very well during the first weeks of school. The first semester has been great! Our students' dedication to classroom work and extracurricular activities have put Brackett ISD in the spotlight. In addition to cross country and the band's outstanding performance, our football team did great again this year! They made it to the second round of the playoffs. It was a great football season. During one of the last games, a spectator approached us to let us know that we have really good kids. The sportsmanship our players exhibited during each game, was noticed by community members and people from surrounding communities. We have amazing students! We are now into the basketball season and I am confident. I am confident they will have a very successful season. The second semester is full of opportunities for our students to continue shining.

Academically, students have been doing well. Students are currently taking middle of the year tests and benchmarks in all core area – Reading, Math, Science, and Social Studies. These assessments will give teachers meaningful data that will help them make instructional decisions. The data will help teachers

provide prescriptive instruction to all students.

We continue with the vision that we are One District.....ONE Team! We are making it a great year!!!
