## SB 546 SCHOOL BUS SEAT BELT COST SUMMARY SCHOOL BOARD REPORT

FEB. 9, 2026

### SB 546

A Texas school bus safety law that moves the state toward 3-point seat belts on school buses and asks districts to be transparent about where we are right now. It requires us to report what type of belts each bus has (none, lap belts, or 3-point) and what it would cost to bring any buses up to the 3-point standard, so the state can see the real price tag and plan for future support.

**\*\* All school buses must be equipped with 3-point seat belts by September 1, 2029\*\***

### School Board Presentation Requirements

- Confirm financial feasibility.
- Report bus counts with: no seatbelt, 2-point (lap), and 3-point seat belts.
- Report estimated cost to equip each bus with 3-point seat belt: retain supporting documentation
- Submit counts, cost and board documentation through TEA Sentinel by May 29, 2026.
