**Scope of Work**

**Sales tax, shipping and handling may apply. Prices are subject to change based on manufacturer changes beyond our control. Orders place after the expiration date may need to be requoted. Parts for components including servers, storage, laptops, and workstations are currently in very limited supply. As a result, quotes from manufacturers like Dell, HP, and Lenovo have a very short lifespan – from days to even hours. We strongly recommend that clients make purchasing decisions as quickly as possible to avoid price increases or extended back order delays. Please contact your Cynergy sales representative with any questions.**
