Good Things at PHS:

John Berns has been selected to participate at the Illinois Music Educators Association State Conference (IMEC)

IM basketball is underway. We have 33 students participating.

Finals are completed. Once grades are finalized we will begin sending letters out to students inviting them to participate in our credit recovery program.

The culmination of continuous collaboration and work analyzing data and programs has resulted in a number of reforms and changes for second semester. We look to offer students a credit recovery program. This program is necessary to help students with learning loss due to the pandemic. We have seen an uptick in the number of students failing classes. Credit recovery will offer students the opportunity to get back on track to graduate with their class. We are also looking to implement test prep for students 9-11. This is one piece of the puzzle in our efforts to improve our math scores. It also comes from the realization that our juniors have not been exposed to testing due to Covid. The feedback we received after our practice test indicated the students desired and were in need of test prep.

In order to accomplish these initiatives we will need to adjust our second semester schedule and the Panther Perks program. There is a proposal in your BOE book.
