

# Keller ISD Administrative Regulation

Topic:	Foreign Exchange Students-Limits on Enrollment
Department:	Curriculum and Instruction
Contact:	Director of Guidance and Counseling
Related Policy:	FD (Local)
Approval Date:	December 12, 2005
Revised:	

## **TEA Foreign Exchange Student Waiver, pursuant to TEC 25.001 (e)**

- The superintendent's designee for oversight of the District's foreign exchange program will pursue the foreign exchange student waiver option in a timely manner to limit the number of foreign exchange students to five students at any high school that is open to in-district transfers.
- At any point that a high school becomes closed to in-district transfers, acceptance of Foreign Exchange students shall cease.

## **Administrative Considerations:**

- Board policy states that the District may limit the number of foreign exchange students to no more than five students at any high school that is open to in-district transfers in any academic year.
- For 2006-2007 only, the number of Foreign Exchange students accepted will be the number of completed applications received prior to approval of an amendment to the waiver approved on December 12, 2006.
