December 17, 2020

Dear Corrina,

Thank you for your response on the modular. I would like to move forward and request to put the new modular next to the School Base building. I can have our maintenance worker meet with you at your earliest convenience to measure the space. I have attached the modular floor plan and dimensions. I would like to make an agreement as soon as possible. The modular will be delivered in January.

We apologize for the delay in the rent payment in the past and would like to come up with a better process so this will not happen again.

This will be a great opportunity to provide dental mental health services to our school age children. We always look forward to working with the school district. If you have any additional questions, please call me at (406) 338-7912.

Sincerely,

  
Roberta Wagner, Administrator  
Southern Peigan Health Center
