Field Trips from 3/1/26 through 3/31/26

Total of **129** trips utilizing **167** vehicles and **49** route drivers.

Implementing ServiceFinder

Our team is implementing ServiceFinder, an all-in-one system to track work orders, maintenance, and inventory. This will help us better manage vehicle service and monitor operating costs across the fleet.

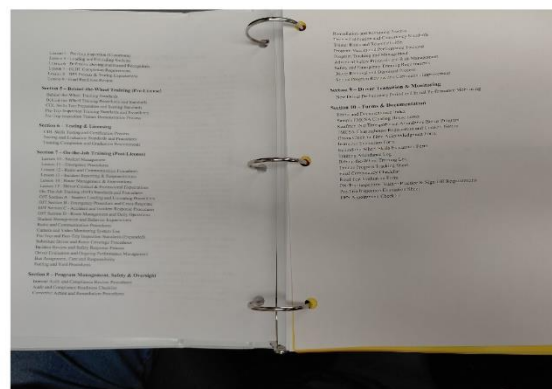

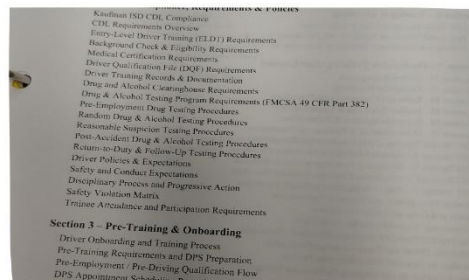

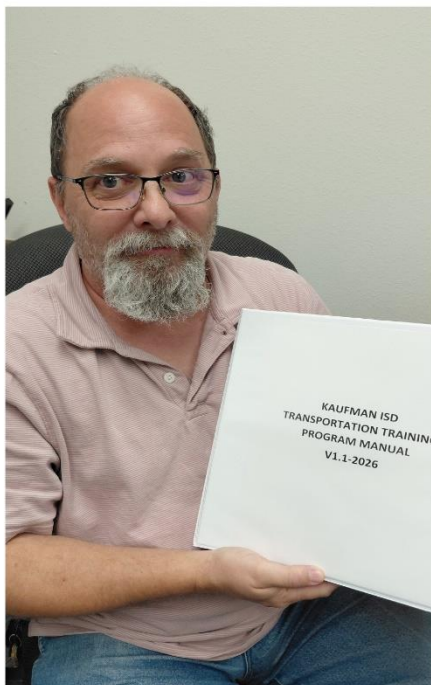

Service Technicians

Our Service Technicians, Victor and Kacie, have done an outstanding job keeping the shop running smoothly during our search for a lead mechanic. Their dedication and teamwork have ensured that operations continue without interruption.

Training Program

Our Driver Trainer, Chris Hodgdon, has developed a comprehensive new training manual outlining everything a new CDL driver will learn, ensuring consistency and eliminating any gaps in our training program.

Region 10 School Bus Rodeo!

Our Transportation Director had the honor of helping plan, coordinate, and facilitate the Region 10 School Bus Rodeo, held this year at Rockwall ISD.

Service Center Cookout

Transportation hosted the Service Center for an Opening Day cookout, providing hot dogs, chips, and Cracker Jacks to all employees. Gena (our awesome Transportation Secretary) also made sure our dual-role employees had goodie bags waiting for them when they returned from their routes.
