RE: Fall Housing 2013

Each year school districts must report to ISBE the number of students enrolled as of the last day in September.

Beginning with the 2008-2009 school year, the school-level fall enrollment counts are based on enrollment and exit dates reported for individual students in the ISBE Student Information System (SIS).

Attached are the Fall Housing Figures for 2013-2014 and 2012-2013. Our low income percentage for 2013-2014 is 24.6%. That is a 2.9% increase from last year.

Schools listed in green are Title I schools. District 97 Title I schools are identified as elementary schools that have a percentage of low income students that is higher than the district average. Please note that for 2013-2014, the percentage of low income students at Hatch (22.7%) is below the district average (24.6%). For the 2015-2016 school year, Hatch will receive a one year "grandfathering status" to retain their Title I status for that school year.
